KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Aegon Ethical Corporate Bond Fund

a sub-fund of Aegon Asset Management UK ICVC

Sterling Class B - Accumulation shares (ISIN: GB00B018K352)

This fund is managed by Aegon Asset Management UK plc (the authorised corporate director ("ACD")).

Objectives and investment policy

Objective: to provide a combination of income and capital growth over any 7 year period.

Policy: The Fund operates an ethical screen which means that the Fund may not invest in particular industries and sectors. In all cases, the investments of the Fund will meet the Fund's predefined ethical criteria.

The Fund will invest at least 80% in a portfolio of investment grade corporate bonds issued anywhere in the world.

Investment grade corporate bonds are bonds issued by companies whose credit rating is deemed to be investment grade, defined as Baa3 or higher by Moody's Investor Services (Moody's) BBB- or higher by Standard & Poor's (S&P) or BBB- or higher by Fitch, or their respective successors or equivalents.

The Fund may also invest up to 10% in high yield corporate bonds issued anywhere in the world.

High yield corporate bonds are considered by the investment manager to be bonds issued by companies whose credit rating is defined as Ba1 or below by Moody's or BB+ or below by Standard and Poor's or BB+ or below by Fitch or their respective successors or equivalents. High yield bonds also include non-rated instruments.

Bond investments will be denominated in Sterling.

The Fund is actively managed and the ACD adjusts the Fund's credit exposure and duration (interest rate risk) based on an analysis of the prevailing economic and market conditions.

Subject to its custom-defined ethical criteria, the Fund will also seek to achieve diversification across individual issuers and sectors when constructing the portfolio.

To the extent that the Fund is not fully invested as set out above, the Fund may also invest in other transferable securities, collective investment schemes (up to 10% of Net Asset Value and which may include schemes managed by the ACD or its affiliates), money market instruments, deposits and cash and near cash. It is intended that investment in any other collective investment schemes will be predominately in approved money market instruments.

Other information

You can buy, sell or exchange the Fund's shares on any business day (see 'Dealing Day' in the Prospectus Definitions for more information).

Income the Fund receives will be reinvested and automatically reflected in the value of your shares.

The Fund is not managed in reference to any index or benchmark

It is expected that the Fund will be held as part of a diversified portfolio which may include other assets such as bonds, equities, property and cash.

Risk and reward profile

The risk/reward profile shows the risk of investing in the Fund, based on the rate at which its value has changed in the past. This Fund has the above risk/reward rating because bond prices can be affected by political or economic events, changes in exchange rates, and changes in interest rates.

The Fund's category is not guaranteed and may change over time. It is calculated using historical data, which may not be a reliable indication for the future. Category 1 does not mean 'risk free'.

The following risks which are not, or are not fully, reflected in the risk/reward profile are also relevant to the Fund:

Credit: An issuer of bonds may be unable to make payments due to the Fund (known as a default). The value of bonds may fall as default becomes more likely. Both default and expected default may cause the Fund's value to fall. High yield bonds generally offer higher returns because of their higher default risk and investment grade bonds generally offer lower returns because of their lower default risk.

Liquidity: The Fund's value may fall if bonds become more difficult to trade or value due to market conditions or a lack of supply and demand. This risk increases where the Fund invests in high yield bonds.

Interest Rate Risk: Bond values are affected by changes in interest rates. When interest rates rise, the value of the Fund is likely to fall.

Full details of risks are disclosed in the section 'Risk Factors' in the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.47%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are the maximum figures, and in some cases you may pay less. You can find out specific charges which apply to your investment by contacting your financial adviser, distributor, or by contacting us using the details given in the Practical Information section.

The ongoing charge is based on expenses for the year to 31 December 2022. This figure may vary from year to year. It excludes any portfolio transaction costs (except in the case of an entry/exit charge paid by the Fund when buying and selling shares in another fund).

Switches or Conversion: 1st 4 in any calendar year are free, and subject to a charge of 1.5% on each transaction thereafter.

More detailed information on charges can be found in the 'Fees and Expenses' section of the Prospectus.

Past performance

Source: Lipper

Past performance is not a guide to future performance.

Fund launch date: 28 April 2000

Share class launch date: 03 June 2004

Performance is calculated in GBP.

The past performance calculation does not take into account the entry and exit charges but does take into account the ongoing charge, as shown in the 'Charges' section.

Note: On 7th September 2020 the name of the Fund changed from Kames Ethical Corporate Bond Fund to Aegon Ethical Corporate Bond Fund.

Source: Lipper

Practical information

Aegon Asset Management UK ICVC is a UK UCITS scheme structured as an umbrella company with various sub-funds, with segregated liability between sub-funds. This document describes one sub-fund of the UK UCITS; the Prospectus and the Report and Accounts are prepared for the entire UK UCITS.

You can exchange your holdings into another share class of the Fund, or another sub-fund of the UK UCITS, at any time. More detailed information on exchanging can be found in the 'Buying, Redeeming, Switching and Conversion of Shares' section of the Prospectus.

The assets and liabilities of the Fund are segregated by law. Accordingly, the assets of this Fund belong exclusively to it and may not be used to meet the liabilities of, or claims against, any other fund within the Aegon Asset Management UK ICVC. Any liability incurred on behalf of, or attributable to, the Fund shall be discharged solely out of the assets of the Fund.

The depositary is Citibank UK Ltd.

The prices of shares will be published daily on our website (www.aegonam.com).

Further information about the Fund and copies of the Prospectus and the latest Annual and Semi-Annual Report and Accounts can be obtained, free of charge, on our website (www.aegonam.com). These documents are available in English.

You should be aware that tax legislation in the UK (where the Fund is authorised) may have an impact on your personal tax position.

Aegon Asset Management UK plc may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.

Details of the up to date remuneration policy of Aegon Asset Management UK plc ("the Company"), including but not limited to a description of how remuneration and benefits are calculated and the identity of persons responsible for awarding the remuneration and benefits, are available at www.aegonam.com. A paper copy will be available free of charge upon request at the registered office of the Company.

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

AXA ACT Green Short Duration Bond Fund

A Sub-Fund of AXA Fixed Interest Investment ICVC

Share class: AXA ACT Green Short Duration Bond Fund ZI Accumulation GBP Quarterly (ISIN: GB00BNNDLJ27)

This Sub-Fund is managed by AXA Investment Managers UK Limited, part of the AXA IM Group

Objective and Investment Policy

Investment Objective

The aim of this Fund is: (i) to provide income and capital growth over the medium term (being three years); and (ii) to invest in bonds which finance projects which will generate an environmental benefit, known as "green bonds".

Investment Policy

The Fund seeks to achieve its objective by investing at least 75% of its Net Asset Value in "green bonds" issued by governments and companies anywhere in the world, with a bias towards corporate bonds. Investment will be made largely in more developed markets but may also be made in emerging markets. The Fund invests at least 75% of its Net Asset Value in investment grade bonds (meaning bonds with a rating of at least BBB- by Standard & Poor or equivalent rating by Moody's or Fitch), with a maximum of 10% in sub-investment grade bonds. At least 70% of the Fund's Net Asset Value will be invested in bonds of shorter (i) maturities (where the full repayment of the bond is expected to occur within five years of its purchase by the Fund) and (ii) duration, the price sensitivity of a bond (or a portfolio of bonds) to a change in interest rates (where the duration of the Fund is expected to be between 0 and 5 years), with the aim of reducing the effect of fluctuations in interest rates. The fund manager will aim to hedge any non-sterling denominated bonds back to sterling. The fund manager selects bonds by carrying out comprehensive analysis of the global economic markets in order to (i) decide the asset allocation across different types of bonds, issuers, sectors and geographical location; (ii) to manage the risk of changes in yields on the price of the bonds in the Fund and (iii) identify "green bonds" by applying its proprietary Green Bonds Framework. When applying its proprietary Green Bonds Framework, the fund manager evaluates the relevant bond and its issuer against the following four pillars:

(i) the quality of the issuer's Environmental, Social and Governance (ESG) practices; (ii) whether the projects undertaken and financed by the issuer will generate an environmental benefit; (iii) the controls that the issuer has in place to manage and allocate proceeds of the bonds to eligible projects; and (iv) the reporting that the issuer provides on the impact of eligible projects.

The fund manager will deem a bond as generating an environmental benefit where such bond finances a project which: (i) addresses an environmental theme, such as low carbon transport or smart energy, which either directly or indirectly contributes to one or more of the environmentally focussed UN Sustainable Development Goals (UN SDG), with a focus on UN SDG 11 (Sustainable cities and communities) and UN SDG 13 (Climate action); (ii) does not significantly harm any UN SDG and (iii) can demonstrate such contribution against the relevant environmental theme and UN SDG, by showing a positive impact of the project against relevant environmental key performance indicators.

In addition, the fund manager will consider the issuer's ESG score as one factor within its broader analysis of the issuer in order to identify bonds which are expected to generate: (i) both income and capital growth; and (ii) an environmental benefit. ESG scores are produced by our selected external provider(s), as detailed in the "Responsible Investment" section of the prospectus. The fund manager will not invest in bonds with the lowest ESG scores.

To avoid investing in bonds which present excessive degrees of ESG risk, the fund manager applies AXA IM Group's sector specific investment guidelines

relating to responsible investment to the Fund. Such guidelines exclude investment in (or exposure to) certain companies based on their involvement in specific sectors, such as soft commodity derivatives, palm oil (including deforestation and natural ecosystems conversion), controversial weapons and climate risks.

The fund manager also applies the AXA Investment Managers' ESG Standards policy. This policy excludes investment in companies based on: tobacco production; manufacture of white phosphorus weapons; human rights; anti-corruption and other environmental, social and governance (ESG) factors. The AXA Investment Managers' ESG Standards policy and AXA IM Group's sector specific investment guidelines are subject to change.

If the fund manager deems that an investment no longer meets the criteria set out in this investment policy or its expectations in terms of that investment's prospects for achieving income and capital growth and/or generating an environmental benefit, the fund manager will disinvest as soon as practicable having regard to the best interests of the Fund's investors and in accordance with its best execution policy.

In selecting the bonds for the Fund, the fund manager may reference the composition and risk profile of the ICE BofAML Green Bond 0-5Y. However the fund manager invests on a discretionary basis with a significant degree of freedom to take positions which are different from the index. The ICE BofAML Green Bond 0-5Y is designed to measure the performance of the green bond universe with a maturity of between 0-5 years. This index best represents the types of bonds in which the Fund predominantly invests. The Fund may also invest at the fund manager's discretion in other transferable securities (for example, fixed income investments), cash, deposits, units in collective investment schemes (including funds managed by the fund manager and its associates) and money market instruments. The Fund may use derivatives (such as credit default swaps, interest rate futures and foreign exchange swaps) for investment purposes as well as for Efficient Portfolio Management. Use may be made of borrowing, cash holdings, hedging and other investment techniques permitted in the applicable Financial Conduct Authority rules.

The ICE BofAML Green Bond 0-5Y may be used by investors to compare the Fund's performance.

Income

Income from investments in the Fund will be rolled up into the value of your shares if you hold accumulation shares.

Fund Currency

The reference currency of the Fund is Sterling.

Investment Horizon

This Fund may not be suitable for investors who plan to withdraw their contribution within three years.

Processing of subscription and redemption orders

Processing of subscription and redemption orders Your orders to buy, sell or transfer shares in the Fund, must be received by the Administrator by 12 noon on any working day to receive that day's Fund price. Please note that if your order is placed by an intermediary or Financial Adviser, they may require extra processing time. The Net Asset Value of this Fund is calculated on a daily basis.

Minimum initial investment: £30,000,000

Minimum subsequent investment: £1,000

Risk and Reward Profile

The risk category is calculated using historical performance data and may not be a reliable indicator of the Fund's future risk profile.

The risk category shown is not guaranteed and may shift over time.

The lowest category does not mean risk free.

Why is this Fund in this category?

The capital of the Sub-Fund is not guaranteed. The Sub-Fund is invested in financial markets and uses techniques and instruments which are subject to some levels of variation, which may result in gains or losses.

Additional Risks (risks materially relevant to the fund which are not adequately captured by the indicator)

Counterparty Risk: failure by any counterparty to a transaction (e.g.

derivatives and securities lending) with the Fund to meet its obligations may adversely affect the value of the Fund. The Fund may receive assets from the counterparty to protect against any such adverse effect but there is a risk that the value of such assets at the time of the failure would be insufficient to cover the loss to the Fund.

Emerging Market Risks: emerging markets or less developed countries may face more political, economic or structural challenges than developed countries. As a result, investments in such countries may cause greater fluctuations in the Fund's value than investments in more developed countries.

Liquidity Risk: some investments may trade infrequently and in small volumes. As a result, the fund manager may not be able to sell at a preferred time or volume or at a price close to the last quoted valuation. The fund manager may be forced to sell a number of such investments as a result of a large redemption of shares in the Fund. Depending on market conditions, this could lead to a significant drop in the Fund's value and in extreme circumstances lead the Fund to be unable to meet its redemptions.

Further explanation of the risks associated with an investment in this Fund can be found in the prospectus.

AXA ACT Green Short Duration Bond Fund

Charges

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	none
Exit charge	none

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the fund over a year

Ongoing Charges	0.33%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	none
-----------------	------

The entry and exit charges shown are maximum figures. In some cases, you might pay less - you can find this out from your Financial Adviser.

The ongoing charges figure is based on expenses for the previous twelve month period. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more information about charges, please refer to AXA IM website: <https://www.axa-im.co.uk/important-information/fund-charges-and-costs> as well as the Fees and Expenses section of the prospectus which is available at <https://funds.axa-im.com>.

The Fund was launched on 05/01/2022.

Practical Information

Depository:

HSBC Bank Plc
Registered Office
8 Canada Square
London, E14 5HQ

Further information:

More detailed information on this Fund, such as the prospectus as well as the latest annual and semi-annual report, can be obtained free of charge from the Fund's Management Company, the Administrator, the Fund's distributors, online at <https://www.axa-im.co.uk>, or by calling 0345 777 5511. These documents are available in English.

More share classes are available for this Sub-Fund. For more details about other share classes, please refer to the prospectus, which is available at <https://funds.axa-im.com/>.

Details of the up to date remuneration policy of the Management Company are published online at www.axa-im.com/important-information/remuneration-policy. This includes the description of how remuneration and benefits are awarded for employees, and information on the remuneration committee. The Management Company provides a paper copy free of charge upon request. A glossary of some of the terms used in this document can be found online at <https://retail.axa-im.co.uk/glossary>

Each Sub-Fund corresponds to a distinct part of the assets and liabilities of the UCITS. As a consequence, the assets of each Sub-Fund are segregated from the assets of the other Sub-Funds and exclusively available to satisfy the rights of investors in relation to that Sub-Fund and the right of creditors

whose claims have arisen in connection with the creation, the operation or the liquidation of that Sub-Fund.

Net Asset Value Publication:

The Net Asset Value per share is available at <https://www.axa-im.co.uk> and at the registered office of the Fund's Management Company.

Tax Legislation:

The Fund is subject to the tax laws and regulations of the United Kingdom. Depending on your own country of residence this might have an impact on your investments. For further details, you should consult a tax adviser.

Liability Statement:

AXA Investment Managers UK Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus for the Fund.

Switching between Funds:

Shareholders may apply for their shares to be converted into shares of another Fund, provided that the conditions for accessing the target share class are fulfilled. Investment would be at the Net Asset Value of the target fund, calculated at the applicable Valuation Point following receipt of the conversion request.

The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus.

For more details about how to switch Fund, please refer to the section in the Fund's prospectus entitled "Can I switch or convert shares and what are the implications?", which is available at <https://funds.axa-im.com>

Key Investor Information

BNY MELLON
INVESTMENT MANAGEMENT

BNY Mellon Sustainable Real Return Fund

INSTITUTIONAL SHARES W (ACCUMULATION) (ISIN: GB00BD6DRD55)

a sub-fund of BNY Mellon Investment Funds. This Fund is managed by BNY Mellon Fund Managers Limited

Objectives and Investment Policy

OBJECTIVE

To achieve a rate of return in sterling terms that is equal to or above the return from cash (SONIA (30-day compounded)) + 4% per annum over five years before fees. In doing so, it aims to achieve a positive return on a rolling three year basis (meaning a period of three years, no matter which day you start on). However, capital is in fact at risk and there is no guarantee that this will be achieved over that, or any, time period.

POLICY

The Fund will:

- invest predominantly, meaning at least 75%, in a portfolio of UK and international securities;
- invest in companies that meet the Investment Manager's sustainability criteria, where environmental, social and governance ("ESG") considerations are an integral part of the criteria. The Investment Manager's sustainability criteria exclude companies that participate in certain activities and involve other general and company level ESG-related analysis of a company's activities;
- follow a broad 'multi-asset' portfolio approach (e.g. company shares (i.e. equities) and similar investments, bonds and similar debt investments and cash);
- gain exposure to property or commodities through exchange listed securities and/or collective investment schemes;
- invest in bonds, issued by governments and companies, with high and low credit ratings (i.e. investment grade and/or sub-investment grade bonds as rated by Standard and Poor's or similar agencies);
- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Fund's investment objective. The Fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and
- limit investment in other collective investment schemes to 10% (including but not limited to another Sub-Fund or Sub-Funds of the Company).

The Fund may:

- invest in emerging markets;
- invest more than 35% of its assets in government and public securities issued or guaranteed by a single state, local authority or public international body;
- allocate up to 8.5% of its assets to alternative risk premia strategies. Such strategies seek to gain exposure to risk premia (the return or reward an investor earns to bear risk) through instruments such as structured notes, derivative instruments and collective investment schemes;
- invest in Contingent Convertible Securities (CoCo's); and
- invest significantly in cash and cash-like investments.

Benchmark: The Fund will measure its performance before fees against SONIA (30-day compounded) +4% per annum over five years as a target benchmark (the "Benchmark").

SONIA is a nearly risk-free rate meaning no bank credit risk is included, the rate can rise or fall as a result of central bank policy decisions or changing economic conditions. The Fund will use the Benchmark as a target for the Fund's performance to match or exceed because, in typical market conditions, it represents a target that will be equal to or greater than UK inflation rates over the same period and is commensurate with the Investment Manager's approach.

The Fund is actively managed, which means the Investment Manager has discretion over the selection of investments, subject to the investment objective and policies as disclosed in the Prospectus.

OTHER INFORMATION

Treatment of income: net income from investments will be retained within the Fund and reflected in the value of your shares.

Dealing: you can buy and sell your shares in the Fund between 9:00 and 17:00 (UK time) on each business day in England and Wales. Instructions received before 12:00 will receive the price quoted on that day. The minimum initial investment for this share class is GBP 500,000.

Risk and Reward Profile

Lower risk
Potentially lower reward

Higher risk
Potentially higher reward

1 2 3 4 5 6 7

We have calculated the risk and reward category, as shown above, using a method of calculation derived from EU rules. It is based on the rate at which the value of the Fund has moved up and down in the past (i.e. volatility) and is not a guide to the future risk and reward category of the Fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment.

This Fund is in category 4 because its historical value has shown moderate volatility. With a Fund of category 4, you have a moderate risk of losing money but your chance for gains is also moderate.

THE FOLLOWING RISKS MAY NOT BE FULLY CAPTURED BY THE RISK AND REWARD INDICATOR:

- **Performance Aim Risk:** The performance aim is not a guarantee, may not be achieved and a capital loss may occur. Funds which have a higher performance aim generally take more risk to achieve this and so have a greater potential for returns to vary significantly.
- **Currency Risk:** This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.

- **Derivatives Risk:** Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.
- **Changes in Interest Rates & Inflation Risk:** Investments in bonds/money market securities are affected by interest rates and inflation trends which may negatively affect the value of the Fund.
- **Credit Ratings and Unrated Securities Risk:** Bonds with a low credit rating or unrated bonds have a greater risk of default. These investments may negatively affect the value of the Fund.
- **Credit Risk:** The issuer of a security held by the Fund may not pay income or repay capital to the Fund when due.
- **Emerging Markets Risk:** Emerging Markets have additional risks due to less-developed market practices.
- **Charges to Capital:** The Fund takes its charges from the capital of the Fund. Investors should be aware that this has the effect of lowering the capital value of your investment and limiting the potential for future capital growth. On redemption, you may not receive back the full amount you initially invested.
- **Shanghai-Hong Kong Stock Connect and/or the Shenzhen-Hong Kong Stock Connect ("Stock Connect") risk:** The Fund may invest in China A shares through Stock Connect programmes. These may be subject to regulatory changes and quota limitations. An operational

constraint such as a suspension in trading could negatively affect the Fund's ability to achieve its investment objective.

- **China Interbank Bond Market and Bond Connect risk:** The Fund may invest in China interbank bond market through connection between the related Mainland and Hong Kong financial infrastructure institutions. These may be subject to regulatory changes, settlement risk and quota limitations. An operational constraint such as a suspension in trading could negatively affect the Fund's ability to achieve its investment objective.
- **Sustainable Funds Risk:** The Fund follows a sustainable investment approach, which may cause it to perform differently than funds that have a similar objective but which do not integrate sustainable investment criteria when selecting securities. The Fund will not engage in stock lending activities and, therefore, may forego any additional returns that may be produced through such activities.

- **CoCo's Risk:** Contingent Convertible Securities (CoCo's) convert from debt to equity when the issuer's capital drops below a pre-defined level. This may result in the security converting into equities at a discounted share price, the value of the security being written down, temporarily or permanently, and/or coupon payments ceasing or being deferred.
- **Counterparty Risk:** The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.
- **Investment in Infrastructure Companies Risk:** The value of investments in Infrastructure Companies may be negatively impacted by changes in the regulatory, economic or political environment in which they operate.

A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".

Charges

The charges cover the costs of running the Fund, including the costs of marketing and selling. These charges reduce the potential growth of your investment.

ONE-OFF CHARGES TAKEN BEFORE OR AFTER YOU INVEST

Entry charge	0.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

CHARGES TAKEN FROM THE FUND OVER A YEAR

Ongoing charge	0.97%
----------------	-------

CHARGES TAKEN FROM THE FUND UNDER CERTAIN SPECIFIC CONDITIONS

Performance fee	None
-----------------	------

The ongoing charge is based on expenses calculated on 31 December 2022. This may vary from year to year. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid when buying or selling units in another mutual fund.

More information about charges is available in the "Fees and Expenses" section of the Prospectus.

Past Performance

The chart includes all charges except entry charges.

Fund launch date - 24 April 2018.

Share class launch date - 24 April 2018.

Performance of this share class is shown in GBP.

Performance of the Benchmark is shown in GBP.

Past performance is not a guide to future performance.

Effective 1st October 2021, the benchmark changed from the London Interbank Offered Rate (LIBOR) to the Sterling Overnight Index Average (SONIA). All benchmark past performance prior to this date was calculated against LIBOR.

Practical Information

Documents: The Fund is a sub-fund (part) of BNY Mellon Investment Funds ("BNY MIF"), an umbrella structure comprising different sub-funds. This document is specific to the Fund and share class stated at the beginning of this document. Copies of the Prospectus, annual and semi-annual reports which are prepared for the umbrella may be obtained free of charge from www.bnymellonim.com or from BNY Mellon Investment Management EMEA Limited, BNY Mellon Centre, 160 Queen Victoria Street, London EC4V 4LA. These documents are available in English, German and Spanish.

Share price: The latest share price and other information, including how to buy or sell shares, are available from the website and address given above. Other share classes are offered by the Fund as set out in the Prospectus.

Switching: Investors may switch shares in the Fund for shares in other sub-funds of BNY MIF provided they satisfy the criteria applicable to investment in other sub-funds. Further information on switching is contained in the "Switching" section of the Prospectus.

Legal status: The assets of the Fund belong exclusively to that sub-fund and may not be used to discharge the liabilities of or claims

against any other person or body, including BNY MIF or any other sub-fund within the umbrella.

Liability statement: BNY Mellon Fund Managers Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the Fund.

Depository: NatWest Trustee and Depository Services Limited.

Tax: The tax legislation of the Fund's domicile may have an impact on your personal tax position. For further details, please speak to an adviser.

Remuneration Policy: Details of the up-to-date remuneration policy of BNY Mellon Fund Managers Limited including, but not limited to, a description of how remuneration and benefits are calculated and the identity of persons responsible for awarding the remuneration and benefits are available on www.bnymellonim.com. A paper copy will be made available free of charge upon request.

Index Providers: Further information about the index providers is set out under 'Benchmark Provider Disclaimers' in the Prospectus.

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

CT Responsible UK Income Fund

Share Class: 2 Inc, a Fund of Columbia Threadneedle (UK) ICVC V (ISIN GB0033144857).
This Fund is managed by Columbia Threadneedle Fund Management Limited.

Objectives and investment policy

The objective is to achieve income with capital growth over the long term (at least 5 years). The Fund invests only in assets which meet the Fund's predefined responsible investment criteria. The Fund invests at least 80% in shares of UK companies. These are companies in any economic sector and of any market capitalisation that may be listed, quoted or traded in the UK or elsewhere but which are incorporated, domiciled or conduct a significant portion of their business in the UK. The Fund may also invest in investment grade, Sterling denominated corporate bonds.

As part of its investment process, the Investment Manager integrates environmental, social and governance ("ESG") factors into its routine analysis. Through this process, the Investment Manager: (1) avoids investments that are contrary to the goals of making positive contributions to society and/or the environment, taking into account both product based exclusions and conduct based exclusions; (2) invests predominantly in companies that meet high standards in how they operate, based on an assessment of their policies and performance with respect to overall sustainability management; and (3) improves companies by selecting those that, in the Investment Manager's opinion, will benefit from active investor engagement, leading to reduced risk, improved performance, best practices and, overall, long-term investor value. The Fund is actively managed. The Manager believes that an appropriate comparator benchmark for reviewing fund performance is the FTSE All-Share index, given the investment policy of the Fund and the approach taken by the Manager. The Fund is not constrained by this benchmark and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition.

Income is distributed quarterly. There is no minimum holding period for this Fund. However, it may not be appropriate for investors who plan to withdraw their money in under 5 years. You may buy or sell shares daily on demand (but not weekends or UK bank holidays or other days when the Fund is not open for dealing). Orders to buy or sell must be received by 12 noon (UK time) to receive the price calculated at that day's valuation point.. We are not required to hold monies arising from the purchase and sales of shares in our funds in a client money bank account and hold these monies in our own bank account, utilising the FCA's permitted one-day window while carrying out a delivery versus payment transaction for the purpose of settling transactions in relation to units in the Fund. In the exceptional event that a transaction is not processed within this one-day window, any cash will be held in a client bank account. No interest will be paid to investors on cash held on a client bank account.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

Historical data may not be a reliable indicator of the Fund's future risk and reward profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean 'risk free'. The value of your investment may fall as well as rise.

The category is based on the rate at which the value of the investments held by the Fund have moved up and down in the past.

The indicator does not adequately reflect the following risks of investing in particular assets, which may impact on future investment return:

Derivative Risk: derivative values rise and fall at a greater rate than equities and debt instruments. Losses can be greater than the initial investment.

Liquidity Risk: the ability to buy and sell assets at a favourable price may be affected by a low level of counterparties willing to enter into a transaction with the Fund.

Smaller Companies Risk: smaller companies carry a higher degree of risk and their value can be more sensitive to market movement.

Ethical Screening Risk: the screening out of sectors or companies on ethical grounds may mean the Fund is more sensitive to price swings than an equivalent unscreened fund.

Credit Risk: receiving income or capital due from debt instruments is dependant on the provider's ability to pay.

Yield Risk: the yield on the FTSE All-Share Index can fall and rise and is not guaranteed.

Charges from Capital Risk: taking the charges from the capital of the Fund to increase the distributable income may impact on capital returns.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	0.81%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

The ongoing charges figure is at 30/11/2022.

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units in another collective investment undertaking.

For more information about charges, please see the section entitled Fees and Expenses in the Fund's prospectus, which is available at www.columbiathreadneedle.co.uk.

Past performance

Source: FE fundinfo 2023

You should be aware that past performance is not a guide to future performance.

Fund launch date: 13/10/1987.

Share/unit class launch date: 06/08/2003.

Performance is calculated in GBP.

The chart shows how much the Fund increased or decreased in value as a percentage in each year, net of charges (excluding entry charge), and net of tax.

Practical information

This document is issued by Columbia Threadneedle Fund Management Limited, a wholly owned subsidiary of Columbia Threadneedle Investments UK International Limited.

Further information regarding the Fund including copies of the prospectus, annual and half yearly report and accounts can be obtained free of charge from Retail Sales Support, Columbia Threadneedle Investments, 6th Floor, Quartermile4, 7a Nightingale Way, Edinburgh EH3 9EG, telephone: Sales Support on 0800 085 0383, email: sales.support@columbiathreadneedle.com or electronically at www.columbiathreadneedle.co.uk.

The Fund is part of Columbia Threadneedle (UK) ICVC V. You may switch investment between other funds or share classes of Columbia Threadneedle (UK) ICVC V. An entry charge may apply. Details on switching are provided in the Fund's prospectus.

The assets and liabilities are segregated by law between the different funds of Columbia Threadneedle (UK) ICVC V. This means that the Fund's assets are held separately from other funds. Your investment in the Fund will not be affected by any claims made against any other fund in Columbia Threadneedle (UK) ICVC V.

Details of the up to date remuneration policy including but not limited to a description of how remuneration and benefits are calculated will be available on www.columbiathreadneedle.co.uk when and in so far as available.

Other practical information, including the latest published price for the Fund is available on our website www.columbiathreadneedle.co.uk.

The Depositary for the Fund is State Street Trustees Limited.

The tax legislation of the United Kingdom may have an impact on your personal tax position depending on your country of residence.

Columbia Threadneedle Fund Management Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus for the Fund.

KEY INVESTOR INFORMATION

EDENTREE RESPONSIBLE AND SUSTAINABLE

SHORT DATED BOND FUND

SHARE CLASS B GB00BZ012J01

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest. This fund is a sub-fund of EdenTree Investment Funds – Series 1, an open ended investment company managed by EdenTree Investment Management Limited as the Authorised Corporate director.

OBJECTIVES AND INVESTMENT POLICY

The Fund aims to preserve capital and generate a regular income payable quarterly.

The EdenTree Responsible and Sustainable Short Dated Bond Fund seeks to invest at least 80% in short dated government bonds and debt instruments issued by companies that the manager believes make a positive contribution to society and the environment through sustainable and socially responsible practices.

In line with the Fund's objective to preserve capital, the Fund will aim to invest at least 80% in sterling denominated fixed interest securities of short duration. Portfolio duration will be expected to average around 2 years, with the anticipated upper limit being 3 years. The portfolio will also look to maintain high credit quality. Securities will usually have a minimum credit rating of A by Moody's, S&P and or Fitch to be considered for investment. A maximum of 10% of the holdings may be invested in BBB-rated debt, seeking a target overall portfolio rating of A or better.

The Manager may also invest in units in collective investment schemes, money-market instruments, derivatives and forward transactions, term deposits, nil and partly-paid securities, cash and near cash as deemed economically appropriate to meet the Fund's objective.

The Fund favours companies that follow good Business Ethics, Corporate Governance, Employment & Labour practices, Environment and Climate Management, Human Rights, and Community Relations and is particularly positive on companies that contribute to Education, Health & Wellbeing, Social Infrastructure and Sustainable Solutions. We assess a diverse set of indicators of a company's approach to sustainability during our screening process. Further details of EdenTree's Responsible and Sustainable Investment Policy are available on request or can be downloaded from our website at www.edentreeim.com.

The Fund favours companies that follow good Business Ethics, Corporate Governance, Employment & Labour practices, Environment and Climate Management, Human Rights, and Community Relations and is particularly positive on companies that contribute to Education, Health & Wellbeing, Social Infrastructure and Sustainable Solutions.

Further details of EdenTree's Responsible and Sustainable Investment Policy which are available on request or can be downloaded from our website at www.edentreeim.com.

We do not currently intend to use derivatives for any purpose other than the efficient management of the Fund. Derivatives are financial instruments that can provide ways of benefiting from movements (up or down) in the price of underlying assets, such as stocks or bonds, without taking ownership of the assets themselves.

This Fund is marketable to retail investors and will be managed in line with the requirements for inclusion in an Individual Savings Account (ISA) but is not available for direct investment in our stocks and shares ISA.

More information on the investment policy can be found in the full Prospectus which is available at www.edentreeim.com/literature

RISK AND REWARD PROFILE

Lower risk = Typically lower rewards

Higher risk = Typically higher rewards

- The risk category above is not a measure of capital loss or gains, but of how significant the rises and falls in the Share Class price.
- For example a Share Class whose price has experienced significant rises and falls will be in a higher risk category, whereas a Share Class whose price has experienced less-significant rises and falls will be in a lower risk category.
- As the Share Class risk category has been calculated using simulated historical data, it may not be a reliable indication of the Share Class future risk profile.
- Please note that the Share Class risk category may change in the future and is not guaranteed. The lowest risk category does not mean a risk-free investment.
- The Share Class is in risk category 3 as its price has experienced moderate rises and falls historically.

What risks are associated with this fund?

- The value of your investment and the income you get from it may fall as well as rise and you could get back less than you put in. What you get back when you cash in your investment will depend on investment performance.
- Selecting stocks due to our ethical criteria means that the choice of stocks is limited to a subset of the stockmarket and this could lead to greater volatility.
- Changes in interest rates will affect the value and the interest earned from the bonds held by the Fund. When interest rates rise, the capital value of the Fund is likely to fall and vice versa.
- The issuer of a financial security held within the Fund may not pay income or repay capital to the Fund when due. The value of a security may be affected by the general state of the economy and market perception of the risk of default.

More details on all of the risks mentioned above can be found in the full Prospectus.

CHARGES FOR THIS FUND

The charges you pay are used to cover the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge None

Exit charge None

This is the maximum that might be taken out of your money (before it is invested) (before the proceeds of your investment are paid out).

Charges taken from the Fund over a year

Ongoing charges 0.38%

Charges taken from the Fund under specific conditions

Performance fee None

The entry charge shown is a maximum figure. In some cases you might pay less – you can find this out from your financial adviser or distributor.

The ongoing charges figure based on expenses for the year ending 31 December 2022. This figure may vary from year to year and excludes portfolio transaction costs.

If you switch Funds within the EdenTree Investment Management range you will be charged a maximum 1% entry charge on your new Fund. The switching charge is currently set to zero.

For more information about charges, please see Appendix 1 of the Fund's Prospectus, which is available at www.edentreeim.com/literature

The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

JPMorgan Fund ICVC

ISIN: GB00B235HC61

JPM Global Macro Sustainable Fund C - Net Accumulation

a Share Class of JPMorgan Fund ICVC – JPM Global Macro Sustainable Fund. The Authorised Corporate Director ("ACD") is JPMorgan Funds Limited

Objectives, Process and Policies

INVESTMENT OBJECTIVE

The Fund aims to provide positive investment returns, before fees, over a rolling 3 year period in all market conditions by investing globally in a portfolio that is positioned towards securities with positive ESG characteristics, using derivatives where appropriate. A positive return is not guaranteed over this or any time period and a capital loss may occur.

INVESTMENT PROCESS

Investment approach

- Uses an investment process based on macro research to identify global investment themes and opportunities.
- Flexible and focused approach to take advantage of global trends and changes through traditional and non-traditional assets.
- Fully integrated, risk management framework provides detailed portfolio analysis.
- Invests in securities exhibiting positive ESG characteristics by adhering to ESG exclusions and positioning the portfolio towards issuers with positive ESG characteristics.

Benchmark ICE BofA SONIA Overnight Rate Index

Benchmark uses and resemblance

- The Fund is actively managed. The Benchmark is a Performance Comparator however the Fund will be managed without reference to its Benchmark. The Benchmark has been chosen as it reflects the investment strategy for the Fund.

POLICIES

Main investment exposure Invests either directly or through derivatives, in a portfolio that is positioned towards securities with positive ESG characteristics, comprised of debt securities, equities, commodity index instruments and convertible securities. The Fund may also invest in currencies, cash and cash equivalents. Issuers of these securities may be located in any country, including emerging markets. "Positive Tilt" is described further in the section headed "ESG Integration and Sustainable Investing Approaches"

The Fund may invest up to 100% in government and public securities.

The Fund may also invest in below investment grade and unrated debt securities.

The Fund may invest up to 10% of its assets in onshore PRC securities including China A-Shares through the China-Hong Kong Stock Connect Programmes and onshore debt securities issued within the PRC through China-Hong Kong Bond Connect.

Allocations may vary significantly and the Fund may be concentrated in, or have net long or net short exposure to, certain asset classes, industry sectors, markets or currencies from time to time.

Securities exhibiting positive ESG characteristics are selected through the use of proprietary research and third-party data. The assessment process has 2 steps: 1) the exclusionary framework, 2) the identification of securities exhibiting positive ESG characteristics.

Step 1: The Fund excludes certain sectors, companies / issuers or practices from the investment universe based on specific values or

norms based criteria. The exclusion policy for the Fund is available at www.jpmmorgan.co.uk/investor.

Furthermore, the Investment Manager will not have long exposure in indices where 30% or more of the underlying securities are on the exclusions list. In addition to this rule, the aggregate long exposure via derivatives to excluded securities will not exceed 5% net equity exposure and this exposure will be monitored to ensure alignment to the exclusion policy. Measuring the exposure involves assessing the price sensitivity of the derivatives to changes in the price of the underlying securities..

Step 2: Through applying a defined set of ESG scoring criteria, the Investment Manager, invests at least 70% of long sovereign debt exposures and 70% of long individual company equity exposures in securities exhibiting positive ESG. In addition to this minimum requirement, positive ESG characteristics are also identified according to the Investment Manager's proprietary assessment of a company / issuer's management of ESG issues relevant to the specific industry, activity or country and exposure to areas such as climate risk, green transport and infrastructure, social advancement and health and wellness.

The Investment Manager carries out a proprietary assessment of ESG criteria to identify any risks and opportunities of potential investments across debt securities and equities. The assessment is based on proprietary internal research and incorporates external insights as well as dedicated ESG analysis and scoring from third-party providers. Such assessment generally includes, without limitation, an analysis of issuer regulatory filings, annual reports, websites, direct and regular communication with issuers, media, third-party research and data providers and government officials, economic surveys and reports. This analysis and the relevant data is inputted into the Investment Managers proprietary assessment and informs investment decisions. The proprietary assessment is ongoing and the Investment Manager continually reviews the holdings against the ESG criteria.

Other investment exposures Small capitalisation companies and collective investment schemes.

Derivatives Used for: investment purposes, efficient portfolio management; hedging. Types: see [Fund Derivative Usage](#) table under [How the Funds Use Derivatives, Instruments and Techniques](#), TRS including CFD: 28% expected; 105% maximum. Global exposure calculation method: absolute VaR. Expected level of leverage from derivatives: 500% indicative only. Leverage may significantly exceed this level from time to time.

Currencies Fund Base Currency: GBP. Currencies of asset denomination: any. Hedging approach: flexible.

Redemption and Dealing Shares of the Fund may be redeemed on demand, with dealing normally on a daily basis.

Distribution Policy This Share Class will reinvest income.

For an explanation of some of the terms used in this document, please visit the glossary on our website at <https://am.jpmmorgan.com/gb/en/asset-management/per/funds/administrative-information/>.

Risk and Reward Profile

Lower risk Potentially lower reward

Higher risk Potentially higher reward

The above rating is based on the historic volatility of the Net Asset Value of the Share Class over the last five years and may not be a reliable indication of the future risk profile of the Share Class.

The risk and reward category shown above is not guaranteed to remain unchanged and may change over time.

A Share Class with the lowest risk rating does not mean a risk-free investment.

Why is this Share Class in this category? This Share Class is classified in category 4 because its Net Asset Value has shown medium fluctuations historically.

OTHER MATERIAL RISKS

The Fund is subject to **Investment risks** and **Other associated risks** from the techniques and securities it uses to seek to achieve its objective.

The table on the right explains how these risks relate to each other and the **Outcomes to the Shareholder** that could affect an investment in the Fund.

Investors should also read [Risk Descriptions](#) in the Prospectus for a full description of each risk.

Investment risks Risks from the Fund's techniques and securities

Techniques	Convertible securities	Emerging markets
Concentration	Debt securities	Equities
Derivatives	- Government debt	Smaller companies
Hedging	- Investment grade debt	UCITS, UCIs and ETFs
Short positions	- Below investment grade debt	
Securities	- Unrated debt	
China		
Commodities		

Other associated risks Further risks the Fund is exposed to from its use of the techniques and securities above

Credit	Currency	Interest rate
Liquidity	Market	

Outcomes to the Shareholder Potential impact of the risks above

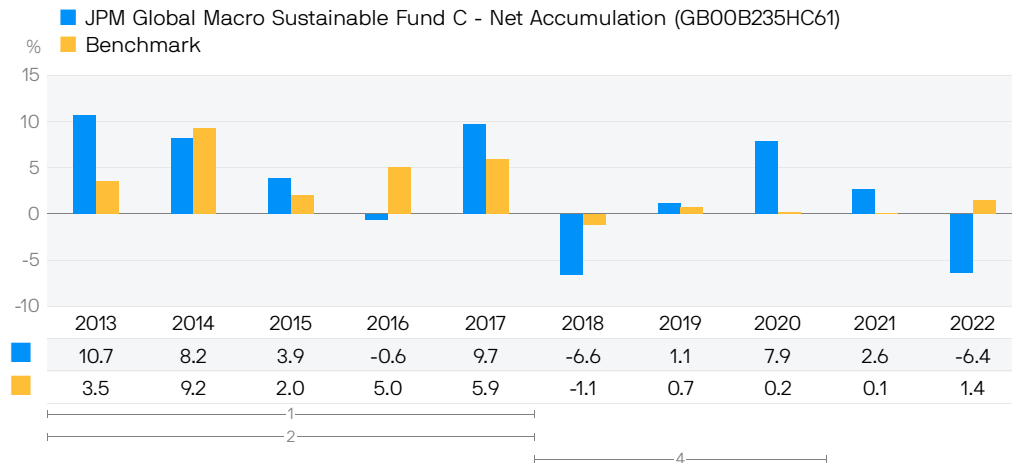

Loss Shareholders could lose some or all of their money.	Volatility Shares of the Fund will fluctuate in value.	Failure to meet the Fund's objective.
---	---	--

Charges

One-off charges taken before or after you invest		
Entry charge	None	This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.
Exit charge	None	
Charges taken from this Share Class over a year		
Ongoing charge	0.75%	The ongoing charge is based on the last year's expenses to December 2022 and may vary from year to year.
Charges taken from this Share Class under certain specific conditions		
Performance fee	None	

- The actual entry and exit charges paid may be less. Information on charges can be obtained from the investor's financial adviser.
- The Prospectus permits a fee to be charged for switching between Funds but this fee is currently waived by the Authorised Corporate Director.
- Charges are used to pay the costs of running this Share Class. These charges reduce the potential growth of the investment.
- Further information about charges can be found in the "Share Classes and Costs" section of the Prospectus.

Past Performance

- Past performance is not a guide to future performance.
- Performance data has been calculated including tax, ongoing charges and portfolio transaction costs and excluding entry and exit charges, in GBP.
- Fund launch date: 2005.
- Share Class launch date: 2012.

- 1 This performance was achieved under circumstances that may no longer apply.
- 2 A different benchmark was used during this period.
- 4 A different benchmark was used during this period.

Practical Information

Depository The fund depository is NatWest Trustee and Depository Services Limited

Morgan Asset Management can be found in the EMEA Privacy Policy, which is available at www.jpmorgan.com/emea-privacy-policy. Additional copies of the EMEA Privacy Policy are available on request.

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Liontrust Sustainable Future Defensive Managed Fund is a sub-fund of the Liontrust Sustainable Future ICVC and categorised as a UCITS scheme. This document is based upon the 2 Inc class (ISIN: GB00BMN90635). This Fund is managed by Liontrust Fund Partners LLP, a subsidiary of Liontrust Asset Management PLC.

Objective

- The Fund aims to deliver income and capital growth over the long term (5 years or more) through investment in sustainable securities.

Policy

- The Fund is actively managed without reference to any benchmark meaning that the Investment Adviser has full discretion over the composition of the Fund's portfolio, subject to the stated investment objectives and policies.
- The Fund will invest globally. All investments will be expected to conform to our social and environmental criteria as set out on the Liontrust website (liontrust.co.uk).
- The investment objective of the Fund will be achieved through investment in securities that provide or produce sustainable products and services as well as having a progressive approach to the management of environmental, social and governance ("ESG") issues.
- Allocations to equities, fixed income, and cash will vary over time depending on market circumstances. Asset allocation limits will remain in line with the following asset allocation ranges:
 - Equity – 20-50%
 - Fixed income – 10-60%
 - Cash – 0-20%
- The Fund may invest in collective investment schemes including other Liontrust Funds (up to 10% of Fund assets), other transferable securities, money market instruments, warrants, and deposits.
- The Fund is permitted to use derivatives for the purposes of efficient portfolio management and for investment purposes.

Recommendation

- This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

How to buy

- You may buy or sell shares on a daily basis (but not weekends or Bank Holidays). Orders must be received by 11:59am for execution at 12:00 midday valuation point on the same day. Further details can be found at www.liontrust.co.uk.

Investment process

- The Fund can invest in equities, bonds and cash.
- For equities, the process starts with a thematic approach in identifying the key structural trends that will shape the global economy of the future. We currently invest in three transformative trends (Better Resource Efficiency, Improved Health and Greater Safety and Resilience) and 20 themes within these. The team then invests in well-run companies whose products and operations capitalise on these transformative changes.
- While themes are at the heart of idea generation, there are three further criteria all holdings have to satisfy:
 - Broader sustainability: While a company might have significant exposure to a theme, the team has to check how sustainable the rest of its activities are.
 - Business fundamentals: The team assesses a company's ability to generate high returns on equity.
 - Financial modelling and valuation: This information is used to construct financial models detailing the revenue, margin and earnings progression the company is likely to deliver over the next five years.
- For the fixed income process, macroeconomic analysis determines the managers' top-down view of the world and this helps shape portfolio construction and appetite for risk. After this, the managers aim to focus on high-quality issuers and believe this can reduce bond specific risk. Assessment of quality is a distinctive part of their process, combining traditional credit analysis with a detailed sustainability assessment based on their proprietary model.
- The managers seek the best-value bonds from high-quality issuers across the capital structure, along the maturity curve and issued in primary credit markets (UK, US and Europe).
- The Fund's asset allocation is based on long-term risk/return profiles of equities, bonds and cash. The managers then tactically adjust these exposures within predefined ranges to enhance overall investment returns. Tactical positioning is driven by analysis of leading economic indicators and then an assessment of asset class valuations relative to both their own history and to each other.

Risk and reward profile

- This Synthetic Risk and Reward Indicator (SRRI) is based on historical data and may not be relied upon to gauge the future risk profile of the Fund.
- The SRRI shown is not guaranteed to remain the same and may shift over time.
- The lowest category (1) does not mean 'risk free'.
- The Fund's risk and reward category has been calculated using the methodology set by the European Commission. It is based upon the rate by which the Fund or a representative fund or index's value has moved up and down in the past.
- The Fund is categorised 4 primarily for its exposure to a diversified portfolio of Global equities and bonds.
- The SRRI may not fully take into account the following risks:
 - that a company may fail thus reducing its value within the Fund;
 - overseas investments may carry a higher currency risk. They are valued by reference to their local currency which may move up or down when compared to the currency of the Fund.
 - Bonds are affected by changes in interest rates and their value and the income they generate can rise or fall as a result;
 - the creditworthiness of a bond issuer may also affect that bond's value. Bonds that produce a higher level of income usually also carry greater risk as such bond issuers may have difficulty in paying their debts. The value of a bond would be significantly affected if the issuer either refused to pay or was unable to pay.
- The Fund may, under certain circumstances, invest in derivatives, but it is

not intended that their use will materially affect volatility. Derivatives are used to protect against currencies, credit and interest rate moves or for investment purposes. There is a risk that losses could be made on derivative positions or that the counterparties could fail to complete on transactions. The use of derivatives may create leverage or gearing resulting in potentially greater volatility or fluctuations in the net asset value of the Fund. A relatively small movement in the value of a derivative's underlying investment may have a larger impact, positive or negative, on the value of a fund than if the underlying investment was held instead. The use of derivative contracts may help us to control Fund volatility in both up and down markets by hedging against the general market.

- The Fund may encounter liquidity constraints from time to time. The spread between the price you buy and sell shares will reflect the less liquid nature of the underlying holdings.
- The Fund may have both Hedged and Unhedged share classes available. The Hedged share classes use forward foreign exchange contracts to protect returns in the base currency of the Fund.
- Outside of normal conditions, the Fund may hold higher levels of cash which may be deposited with several credit counterparties (e.g. international banks). A credit risk arises should one or more of these counterparties be unable to return the deposited cash.
- Counterparty Risk: any derivative contract, including FX hedging, may be at risk if the counterparty fails.
- ESG Risk: there may be limitations to the availability, completeness or accuracy of ESG information from third-party providers, or inconsistencies in the consideration of ESG factors across different third party data providers, given the evolving nature of ESG.
- For full details of the Fund's risks, please see the prospectus which may be obtained from Liontrust (address overleaf) or online at www.liontrust.co.uk.

SUSTAINABLE FUTURE DEFENSIVE MANAGED FUND

Charges for this fund

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None

- This is the maximum that might be taken out of your money before it is invested.

Charges taken from the Fund over the year	
Ongoing charges	0.93%

Charges taken from the Fund under certain specific circumstances	
Performance fee	None

Past performance

- Past performance is not a guide to future performance.** It has been calculated on the basis that any distributable income of the Fund has been reinvested. The past performance shown in the chart takes into account all charges except entry and exit charges.
- The Fund launch date is 23 July 2014.
- The 2 Inc share class launch date is 23 July 2014.
- The base currency of the Fund is pounds sterling.

- The entry and exit charges** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser or fund platform if you are not using a financial adviser.
- The ongoing charges** figure is based on expenses as at 31 December 2022. This figure may vary from year to year. It excludes:
 - portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units/shares in another collective investment undertaking.
- For more information about charges and what is included in each charge, please see the Fund's prospectus, which is available electronically at www.liontrust.co.uk or visit the costs and charges page on our website at www.liontrust.co.uk/costs-and-charges.

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Liontrust Sustainable Future Global Growth Fund is a sub-fund of the Liontrust Sustainable Future ICVC and categorised as a UCITS scheme. This document is based upon the 2 Acc class (ISIN: GB0030030067). This Fund is managed by Liontrust Fund Partners LLP, a subsidiary of Liontrust Asset Management PLC.

Objective

- The Fund aims to deliver capital growth over the long term (5 years or more) through investment in sustainable securities.

Policy

- The Fund is considered to be actively managed in reference to the benchmark(s) in the performance table by virtue of the fact that it uses the benchmark(s) for performance comparison purposes. The benchmark(s) are not used to define the portfolio composition of the Fund and the Fund may be wholly invested in securities which are not constituents of the benchmark.
- The Fund will invest in companies globally. All investments will be expected to conform to our social and environmental criteria as set out on the Liontrust website (liontrust.co.uk).
- The investment objective of the Fund will be achieved through investment in securities that provide or produce sustainable products and services as well as having a progressive approach to the management of environmental, social and governance ("ESG") issues.
- The Fund will typically invest 95% (minimum 90%) of its assets in equities or equity related derivatives but may also invest in collective investment schemes (up to 10% of Fund assets), corporate debt securities, other transferable securities, money market instruments, warrants, cash and deposits.
- Investments in emerging market securities will be limited to 20%.
- The Fund is permitted to use derivatives for the purposes of efficient portfolio management and for investment purposes.

Recommendation

- This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

How to buy

- You may buy or sell shares on a daily basis (but not weekends or Bank Holidays). Orders must be received by 11:59am for execution at 12:00 midday valuation point on the same day. Further details can be found at www.liontrust.co.uk.

Investment process

- The process starts with a thematic approach in identifying the key structural trends that will shape the global economy of the future. We currently invest in three transformative trends (Better Resource Efficiency; Improved Health; and Greater Safety and Resilience) and 20 themes within these trends such as technological and medical advancements.
- The team then invests in well run companies whose products and operations capitalise on these transformative changes.
- While themes are at the heart of the investment idea generation, there are three further criteria all potential holdings have to satisfy:
 - Broader sustainability of the company: While a company might have significant exposure to a theme, the team has to check how sustainable the rest of its activities are.
 - Business fundamentals: The team assesses a company's ability to generate high returns on equity. This includes analysis of the competitive dynamics facing the business and the resilience of its advantages versus competitors.
 - Financial modelling and valuation assessment: This information is used to construct financial models detailing the revenue, margin and earnings progression the company is likely to deliver over the next five years.
- Among the team's key differentiators is the fact that all the sustainable elements are integrated within a single team. Every team member is responsible for all aspects of financial and ESG relating to an investment decision. This means the team engages with companies across a broad range of issues relating to stages in their process, including screening criteria, sustainable investment themes and company specific ESG issues.

Risk and reward profile

- This Synthetic Risk and Reward Indicator (SRRRI) is based on historical data and may not be relied upon to gauge the future risk profile of the Fund.
- The SRRRI shown is not guaranteed to remain the same and may shift over time.
- The lowest category (1) does not mean 'risk free'.
- The Fund's risk and reward category has been calculated using the methodology set by the European Commission. It is based upon the rate by which the Fund or a representative fund or index's value has moved up and down in the past.
- The Fund is categorised 6 primarily for its exposure to Global equities.
- The SRRRI may not fully take into account the following risks:
 - that a company may fail thus reducing its value within the Fund;
 - overseas investments may carry a higher currency risk. They are valued by reference to their local currency which may move up or down when compared to the currency of the Fund.
- The Fund may, under certain circumstances, invest in derivatives, but it is not intended that their use will materially affect volatility. Derivatives are used to protect against currencies, credit and interest rate moves or for investment purposes. There is a risk that losses could be made on derivative positions or that the counterparties could fail to complete on transactions. The use of derivatives may create leverage or gearing resulting in potentially greater volatility or fluctuations in the net asset value of the Fund. A relatively small movement in the value of a derivative's underlying investment may have a larger impact, positive or negative, on the value of a fund than if the underlying investment was held instead. The use of derivative contracts may help us to control Fund volatility in both up and down markets by hedging against the general market.

- The Fund may encounter liquidity constraints from time to time. The spread between the price you buy and sell shares will reflect the less liquid nature of the underlying holdings.
- The Fund may have both Hedged and Unhedged share classes available. The Hedged share classes use forward foreign exchange contracts to protect returns in the base currency of the Fund.
- Outside of normal conditions, the Fund may hold higher levels of cash which may be deposited with several credit counterparties (e.g. international banks). A credit risk arises should one or more of these counterparties be unable to return the deposited cash.
- Counterparty Risk: any derivative contract, including FX hedging, may be at risk if the counterparty fails.
- ESG Risk: there may be limitations to the availability, completeness or accuracy of ESG information from third-party providers, or inconsistencies in the consideration of ESG factors across different third party data providers, given the evolving nature of ESG.
- For full details of the Fund's risks, please see the prospectus which may be obtained from Liontrust (address overleaf) or online at www.liontrust.co.uk.

SUSTAINABLE FUTURE GLOBAL GROWTH FUND

Charges for this fund

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None

- This is the maximum that might be taken out of your money before it is invested.

Charges taken from the Fund over the year	
Ongoing charges	0.85%

Charges taken from the Fund under certain specific circumstances	
Performance fee	None

Past performance

- Past performance is not a guide to future performance.** It has been calculated on the basis that any distributable income of the Fund has been reinvested. The past performance shown in the chart takes into account all charges except entry and exit charges.
- The Fund launch date is 19 February 2001.
- The 2 Acc share class launch date is 19 February 2001.
- The base currency of the Fund is pounds sterling.

- The entry and exit charges** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser or fund platform if you are not using a financial adviser.
- The ongoing charges** figure is based on expenses as at 31 December 2022. This figure may vary from year to year. It excludes:
 - portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units/shares in another collective investment undertaking.
- For more information about charges and what is included in each charge, please see the Fund's prospectus, which is available electronically at www.liontrust.co.uk or visit the costs and charges page on our website at www.liontrust.co.uk/costs-and-charges.

Rathbone Ethical Bond Fund (I-Class Income)

A sub-fund of Rathbone Unit Trusts
Fund Manager: Rathbone Unit Trust Management Limited
I-Class Income ISIN GB00B7FQJT36

Objectives and Investment Policy

We aim to deliver a greater total return than the Investment Association (IA) Sterling Corporate Bond sector, after fees, over any rolling five-year period. Total return means the return we receive from the value of our investments increasing (capital growth) plus the income we receive from our investments (interest payments). We use the IA Sterling Corporate Bond sector as a target for our fund's return because we aim to achieve a better return than the average of funds that are similar to ours.

We will invest at least 80% of our fund in corporate bonds with an investment-grade rating (AAA to BBB-), based on the average of the three largest rating agencies (Standard & Poor's, Moody's and Fitch). We can invest up to 20% of our fund in corporate bonds with a credit rating below BBB- or with no rating at all. Up to 10% of the fund can be invested directly in contingent convertible bonds. These specialist bonds, typically issued by banks and insurers, are forcibly replaced with shares if the issuer experiences heavy losses. At least 80% of the portfolio will be invested in sterling bonds or in overseas assets whose value we have hedged back to sterling. Hedging means we buy a financial instrument to swap the value of these assets into sterling to protect our investment from changes in the price of foreign currencies.

We actively manage our fund, which means we can choose what we invest in as long as it's in line with the investment objective and policy. Because of this, our fund's performance can diverge significantly from its benchmarks over shorter periods of time and therefore isn't appropriate for investors who plan to withdraw their money within five years.

Our fund's ethical and sustainability criteria are applied by Rathbone Greenbank Investments, an ethical research division of our company, which cannot be influenced by our fund managers. Companies are assessed against positive and negative social and environmental criteria.

For us to invest in a company, it must satisfy at least one of the following: strong employment practices, sustainable environmental practices or community engagement and commitment to human rights.

We do not invest in companies engaged in the following:

- Alcohol manufacturing
- Carbon-intensive industries
- Human rights abuses
- Alcohol retail
- Poor employment practices
- Nuclear power
- Animal welfare violations
- Polluting the environment
- Pornography
- Armaments
- Gambling
- Tobacco manufacturing

Our fund is designed for investors with a basic knowledge of bonds who seek income and growth. You should intend to invest for longer than five years, understand the risks of our fund and have the ability to bear a capital loss.

You can buy and sell units on each business day of the fund between 9am and 5pm. The fund offers accumulation units (units in which any income payable by the fund is reinvested) and income units (units in which any income received in the fund will be paid to the unitholder).

Risk and reward profile

These numbers rate how the Fund may perform and the risk of losing some or all of your investment. In general the potential for higher returns also implies a higher level of risk. However, the lowest category (1) does not mean a risk free investment.

The risk category is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time.

This indicator is a measure of the fund's past volatility (the extent and rapidity of up-and-down movements of the value of an investment). It may not be a reliable indication of the fund's future risk. The risk category shown is not a target or a guarantee and may change over time.

The risk indicator for this fund reflects the following:

- The emphasis on income helps the manager to maintain a moderate risk profile for the fund.

The value of investments in the fund and the income from them may go down as well as up and you may not get back your original investment when you sell your units.

During unusual market conditions, the risks normally experienced by the fund may increase significantly, and in addition, the fund may be subject to the following risks:

Liquidity risk: Some assets held in this fund can be hard to sell, especially in times of market stress. This could mean that if we had a lot of money redeemed from our fund in a short period of time, we might not be able to meet our obligations. In this circumstance, we are able to suspend our fund until we could find a buyer for these assets. This would result in you being unable to access your money.

Counterparty risk: A company that we deal with may renege on its obligations, costing you money.

Interest rate risk: Most bonds pay us a fixed amount over an agreed period of time. If interest rates rise these bonds become less valuable and we may be locked into an unfavourable investment. If interest rates fall these bonds become more valuable.

Credit risk: Bonds that we own can become more or less creditworthy and will fluctuate in value resulting in gains or losses. Bonds that we own may fail to meet their legal obligations, such as missing an interest payment. This is known as a 'default' and will result in a loss.

Operational risk: We rely on complex systems to ensure that trades are completed, our fund's assets are accounted for and that you can buy or sell our fund. If our systems fail, you could be inconvenienced or lose money.

Derivatives risk: Sometimes we use financial contracts to reduce risk. There is a chance that these derivatives won't work in the way we intended, which could result in unexpected gains or losses.

Management risk: People make the investment decisions for our fund. If they make unfavourable decisions, you could lose money.

Sustainability Risk: Returns could deviate from the market or funds that don't promote environmental or social characteristics, or that don't avoid investments/sectors e.g., oil, tobacco.

Charges for this Fund

The fund manager receives an annual fee, which is included in the ongoing charges shown below. You may be eligible for lower entry charges than the maximum shown; ask your financial adviser. Ongoing charges are the same for all investors in the same class. The charges shown below are based on actual fees and expenses as at the Fund's current year-end or semi-annual period.

Entry Charge	none
Exit Charge	none
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Ongoing Charges	0.66%
Charges taken from the Sub-Fund under certain specific conditions	
Performance Fee	none

The Fund does not charge entry or exit charges.

For more information about charges, please see the "Charges" section of the fund's Prospectus, available by calling the Information Line or emailing rutm@rathbones.com.

Past Performance

Basis of performance: Price performance based upon bid to bid prior to 21 January 2019 and single price (mid) thereafter.

Past performance is reported on a full calendar year basis.

Fund inception: 14 May 2002. I-class units were launched 1 March 2012.

Past performance should not be seen as an indication of future performance.

Practical Information

Depository: NatWest Trustee and Depository Services

Additional information: This Key Investor Information Document (KIID) may not contain all the information you need. For additional information on the fund (including the Supplementary Information Document), and on other funds, or to obtain a free copy of the fund's Prospectus or the annual and semi-annual unit holder reports, call the Information Line or write to the registered office, at the address below. The Prospectus and unit holder reports are in English.

Please note this Key Investor Information Document (KIID) may provide data to represent both Accumulation and Income share classes. There may be some differences in applicable charges to specific share classes. Further information is available upon request to the Investment Manager.

For fund performance and most recent unit price, go to rathbonefunds.com.

The up-to-date remuneration policy of the fund manager, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, including the composition of the remuneration committee, is available free of charge upon request at the fund manager's registered office. A summary thereof is available on rathbonefunds.com/literatureitem/remuneration-policy.

Tax: Investors should note that the tax legislation that applies to the fund may have an impact on the personal tax position of their investment in the fund. Contact your adviser to discuss tax treatment and the suitability of this investment.

Notices: Rathbone Unit Trust Management Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the fund. The assets of each of our funds are segregated, meaning that each fund is insulated from any losses or claims associated with other funds.

Royal London Sustainable Managed Growth Trust (Accumulation - Class C Shares)

A sub-fund of Royal London Sustainable Managed Growth Trust
Managed by RLUM Limited

ISIN: GB00B8H7XS88

Objectives and investment policy

Objective The Fund's investment objective is to achieve a total return over the medium term (3-5 years) by investing mainly in sterling-denominated bonds, with some exposure to shares, that are deemed to make a positive contribution to society.

Investments in the Fund will adhere to the Manager's ethical and sustainable investment policy. The Fund is actively managed.

Policy At least 65% of the Fund will be invested in bonds (typically sterling-denominated), both government and corporate. Between 30% and 70% of the Fund's investment will be in investment grade corporate bonds. A maximum of 35% of the Fund will be invested in the shares of companies globally. These will be businesses that are listed on stock exchanges in their respective countries. The remainder of the Fund's assets may be invested in a range of securities, including UK government bonds, index-linked bonds, securitisations, supranational bonds, preference shares, floating-rate notes, asset-backed securities and bonds denominated in currencies other than sterling.

The Fund focuses on the sustainability of the products and services of the companies it invests in, as well as their standards of environmental, social & governance (ESG) management, alongside financial analysis. For further details of the Manager's ethical and sustainable investment policy please refer to the Prospectus. Investors can view the current policy at <https://www.royallondon.com/existing-customers/your-products/manage-your-isa-or-unit-trust/rlum-isa-overview/>.

The Fund may invest up to 10% in other investment funds, known as collective investment schemes. Typically only a small portion of assets will be invested in cash.

The Fund may also invest a small amount of its portfolio in derivatives (investments that derive their value from another closely related underlying investment) for investment purposes and efficient portfolio management (EPM).

Recommendation This Fund may not be appropriate for investors who plan to withdraw their money within five years. You should aim to keep your units for at least five years, although you can sell them at any time.

Concepts to understand

Total Return A total return is a combination of capital growth and income. Capital growth is defined as the rise in an investment's value over time and income as the payment an investment generates, such as dividends or bond coupons.

Bonds are defined as fixed-income investments issued as debt by companies and public bodies to raise finance. Investors in bonds receive a previously agreed, non-variable interest payment until the investment matures. Corporate bonds are those issued by companies to raise finance.

Environmental, social and governance A list of predefined criteria that determines how a company operates in terms of sustainability and overall corporate governance.

Efficient Portfolio Management A list of approved investment techniques, including the use of derivatives, used to protect against excessive risk, reduce cost or generate extra income or growth.

You can buy and sell your shares on each working day, except public holidays, at 12:00 noon if you tell us before 12:00 noon that you want to do so. Instructions received after 12:00 noon will be processed at 12:00 noon on the following working day.

Other share classes may be available as described in the Prospectus. If this is an income share class, any income will be paid out to you. If this is an accumulation share class, any income will be reinvested in the Fund.

Risk and reward profile

Lower risk

Higher risk

Typically lower rewards

Typically higher rewards

The fund is shown in risk category 4 because its unit price has shown a medium level of volatility historically. The indicator has been calculated using historical data and may not be a reliable indication of the future risk profile of the Fund. As an investment, bonds are typically more volatile than money market instruments but less volatile than shares. Bonds issued by corporations are typically more volatile than bonds issued by governments.

This Fund has a mixture of bonds, money market instruments and shares.

The risk and reward indicator is not a measure of the expected rise or fall in capital but shows how sharply the Fund's share price has gone up and down historically. A fund whose share price has experienced sharp or large increases or decreases will sit in a higher risk category, whereas a fund whose share price has experienced small or gradual increases or decreases will sit in a lower risk category.

The indicator is calculated using a standard methodology derived from EU rules.

The risk/reward indicator is an estimate and not a guarantee. Going forward, the Fund's actual volatility could be higher or lower, and its rated risk/reward profile could change. The lowest risk category does not mean the investment is risk free.

The risk indicator does not adequately capture the following risks, which are materially relevant to the Fund:

Investment Risk The value of investments and any income from them may go down as well as up and is not guaranteed. Investors may not get back the amount invested.

Concentration risk The price of Funds that invest in a reduced number of holdings, sectors, or geographical areas may be more heavily affected by events that influence the stockmarket and therefore more volatile.

Credit Risk Should the issuer of a fixed income security become unable to make income or capital payments, or their rating is downgraded, the value of that investment will fall. Fixed income securities that have a lower credit rating can pay a higher level of income and have an increased risk of default.

Derivative Risk Derivatives are highly sensitive to changes in the value of the underlying asset which can increase both Fund losses and gains. The impact to the Fund can be greater where they are used in an extensive or complex manner, where the Fund could lose significantly more than the amount invested in derivatives.

EPM Techniques The Fund may engage in EPM techniques including holdings of derivative instruments. Whilst intended to reduce risk, the use of these instruments may expose the Fund to increased price volatility.

Exchange Rate Risk Investing in assets denominated in a currency other than the base currency of the Fund means the value of the investment can be affected by changes in exchange rates.

Interest Rate Risk Fixed interest securities are particularly affected by trends in interest rates and inflation. If interest rates go up, the value of capital may fall, and vice versa. Inflation will also decrease the real value of capital.

Liquidity Risk In difficult market conditions the value of certain fund investments may be difficult to value and harder to sell, or sell at a fair price, resulting in unpredictable falls in the value of your holding.

Counterparty Risk The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

Responsible Investment Risk The Fund can only invest in holdings that demonstrate compliance with certain sustainable indicators or ESG characteristics. This reduces the number securities in which the Fund can invest and there may as a result be occasions where it forgoes more strongly performing investment opportunities, potentially underperforming non-sustainable funds.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing the Fund. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest:

Entry charge	None
--------------	------

Exit charge	None
-------------	------

Charges taken from the fund over a year:

Ongoing charge	0.67%
----------------	-------

Charges taken from the fund under specific conditions:

Performance fee	None
-----------------	------

The entry and exit charge is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. The ongoing charges figure is based on expenses as at 31 December 2022. This figure may vary from year to year and does not include portfolio transaction costs. Ongoing charges are the same for all investors.

Past performance

The graph shows fund performance over the past 10 years where available. The figure for a given year shows how much the Fund increased or decreased in value during that year. These results reflect ongoing charges taken from the Fund, but do not reflect any entry charges you might have to pay.

The Fund was launched on 4 December 2012 and the share class on 4 December 2012.

The Royal London Sustainable Managed Growth Trust (Accumulation - Class C Shares) in GBP

Source: RLAM and DataStream as at 31 December 2022

Past performance is not a guide to future performance and may not be repeated.

The chart shows performance in British Pounds after the ongoing charges and the portfolio transaction costs have been paid. Entry and exit charges are excluded from calculations of past performance. The past performance is calculated in British Pounds, with net dividends reinvested.

Schroder Global Sustainable Value Equity Fund

an Authorised Unit Trust of Schroder Unit Trusts Limited
Class I Accumulation GBP (GB00B019KQ13)

This fund is managed by Schroder Unit Trusts Limited, which is a member of the Schroders Group.

Objectives and investment policy

Objectives

The fund aims to provide capital growth in excess of the MSCI World (Net Total Return) Index (after fees have been deducted) over a three to five year period by investing in equity and equity related securities of companies worldwide which meet the investment manager's sustainability criteria.

Investment policy

The fund is actively managed and invests at least 80% of its assets in a concentrated range of equity and equity related securities of companies worldwide which meet the investment manager's sustainability criteria (please see the fund Characteristics section of the prospectus relating to the fund). The fund typically holds 30 to 70 companies.

The fund focuses on companies that have certain "Value" characteristics. Value is assessed by looking at indicators such as cash flows, dividends and earnings to identify securities which the manager believes have been undervalued by the market.

The fund maintains a higher overall sustainability score than the MSCI World (Net Total Return) index, based on the investment manager's rating system. More details on the investment process used to achieve this can be found in the fund Characteristics section of the prospectus relating to the fund.

The fund does not directly invest in certain activities, industries or groups of issuers above certain limits listed under "Sustainability Information" on the fund's webpage, accessed via www.schroders.com/en/uk/private-investor/gfc.

The fund invests in companies that have good governance practices, as determined by the investment manager's rating criteria (please see the fund Characteristics section of the prospectus relating to the fund).

The fund may invest in companies that the investment manager believes will improve their sustainability practices within a reasonable timeframe, typically up to three years.

The investment manager may also engage with companies held by the fund to challenge identified areas of weakness on sustainability issues. More details on the investment manager's approach to sustainability and its engagement with companies are available on the website.

<https://www.schroders.com/en/uk/private-investor/strategic-capabilities/sustainability/>

The fund may also invest directly or indirectly in other securities (including in other asset classes), countries, regions, industries or currencies, collective investment schemes (including Schroder funds), warrants and money market instruments, and hold cash.

The fund may use derivatives with the aim of reducing risk or managing the fund more efficiently (for more information please refer to section 6 of Appendix I of the prospectus).

Benchmark

The fund's performance should be assessed against its target benchmark, being to exceed the MSCI World (Net Total Return) Index, and compared against the MSCI World Value (Net Total Return) Index and the Investment Association Global sector average return.

Dealing frequency

You may redeem your investment upon demand. This fund deals daily.

Distribution policy

This unit class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the unit class.

Risk and reward profile

Lower risk

Potentially lower reward

Higher risk

Potentially higher reward

The risk and reward indicator

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Risk factors

Concentration risk: The fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the fund, both up or down.

Sustainable Investing Risk: The fund applies sustainability criteria in its selection of investments. This investment focus may limit the fund's exposure to companies, industries or sectors and the fund may forego investment opportunities that do not align with its sustainability criteria chosen by the investment manager. As investors may differ in their views of what constitutes

sustainability, the fund may invest in companies that do not reflect the beliefs or values of any particular investor.

Currency risk: The fund may lose value as a result of movements in foreign exchange rates, otherwise known as currency rates.

Derivatives risk: Derivatives, which are financial instruments deriving their value from an underlying asset, may be used to manage the portfolio efficiently. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

Operational risk: Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

IBOR risk: The transition of the financial markets away from the use of interbank offered rates (IBORs) to alternative reference interest rates may impact the valuation of certain holdings and disrupt liquidity in certain instruments. This may impact the investment performance of the fund.

Charges

One-off charges taken before or after you invest

Entry charge None

Exit charge None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges 0.79%

Charges taken from the fund under certain specific conditions

Performance fee

None

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2022 and may vary from year to year. The ongoing charge figure excludes portfolio transaction costs. The charges are mostly, if not exclusively, the Schroders Annual Charge (as may be discounted for retail unit classes depending on the size of the fund) but certain additional expenses may be charged as set out in the prospectus. The Schroders Annual Charge (without any discount) for this unit class of the fund is 0.79%. The fund's annual report for each financial year will include details on the exact charges made including any discounts.

Please see the prospectus for more details about the charges.

Past performance

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in British pound after the ongoing charges and the portfolio transaction costs have been paid.

The fund was launched on 24/03/2006.

The shareclass was launched on 24/03/2006.

Performance achieved between 2011 and 2018 was achieved in circumstances that no longer apply. Please note the fund's name, objective and investment policy changed on 14 February 2018. The fund's benchmarks have changed as follows:

- From 14 February 2018 to 31 March 2021 (Target benchmark: FTSE Customised All-Share ex Ethically Screened (Gross Total Return) Index. Comparator benchmark: FTSE All Share (Gross Total Return) Index).

- From 31 March 2021 to 15 August 2021 (Target benchmark: FTSE Customised All-Share ex Ethically Screened (Gross Total Return) Index. Comparator benchmarks: FTSE All Share (Gross Total Return) Index and the MSCI UK Value (Gross Total Return) Index).

- From 16 August 2021 onwards (Target benchmark: MSCI World (Net Total Return). Comparator benchmarks: MSCI World Value (Net Total Return) Index and the Investment Association Global sector average return).

- I Accumulation GBP (GB00B019KQ13)
- MSCI World (Net Total Return) Index
- MSCI World Value (Net Total Return) Index
- Investment Association Global sector average return
- FTSE Customised All-Share ex Ethically Screened (Gross Total Return) Index
- FTSE All Share (Gross Total Return) Index
- MSCI UK Value (Gross Total Return) Index

Practical information

Trustee: J. P. Morgan Europe Ltd.

Further Information: You can get further information about this fund, including the prospectus, latest annual report, any subsequent half-yearly reports and the latest price of units from www.schroders.com/ukinvestor and from Schroders, PO Box 1402, Sunderland, SR43 4AF, England, telephone 0800 182 2399. They are in English, free of charge.

Tax Legislation: The fund is subject to UK tax legislation which may have an impact on your personal tax position.

Liability: Schroder Unit Trusts Ltd may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the fund's prospectus.

Switches: Subject to conditions, you may apply to switch your investment into another share class within this fund or in another Schroder fund. Please see the prospectus for more details.

Remuneration policy: A summary of Schroders' remuneration policy and related disclosures is at www.schroders.com/remuneration-disclosures. A paper copy is available free of charge upon request.

The policy includes a description of how remuneration and benefits are calculated & the identities of persons responsible for awarding the remuneration and benefits.

Glossary: You can find an explanation of some of the terms used in this document at www.schroders.com/ukinvestor/glossary.

Benchmark: The target benchmark has been selected because it is representative of the type of investments in which the fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. The comparator benchmarks have been selected because the investment manager and the manager believe that these benchmarks are a suitable comparison for performance purposes given the fund's investment objective and policy.

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Schroder Sustainable Bond Fund

an Authorised Unit Trust of Schroder Unit Trusts Limited

Class L Accumulation GBP (GB00BDD27793)

This fund is managed by Schroder Unit Trusts Limited, which is a member of the Schroders Group.

Objectives and investment policy

Objectives

The fund aims to provide income and capital growth in excess of the ICE BofA Sterling 3-Month Government Bill Index plus 2.5% (after fees have been deducted) over any three to five year period, by investing directly in fixed and floating rate securities issued by governments, government agencies and companies worldwide which meet the investment manager's sustainability criteria.

Investment Policy

The fund is actively managed and invests at least 80% of its assets directly, in fixed and floating rate securities denominated in sterling (or in other currencies and hedged back into sterling) issued by governments, government agencies, supra-national and corporate issuers worldwide, (including emerging markets and less developed markets), which meet the investment manager's sustainability criteria (please see the Fund Characteristics section of the prospectus for more detail).

The fund maintains a positive absolute sustainability score based on the investment manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section of the prospectus.

The fund does not directly invest in certain activities, industries or groups of issuers above certain limits listed under "Sustainability Information" on the fund's webpage, accessed via

www.schroders.com/en/lu/private-investor/gfc.

The fund invests in companies that have good governance practices, as determined by the investment manager's rating criteria (please see the Fund Characteristics section of the prospectus for more details).

The investment manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details

on the investment manager's approach to sustainability and its engagement with companies are available on the website

www.schroders.com/en/uk/private-investor/strategic-capabilities/sustainability/disclosures.

The fund may invest up to 50% of its assets in below investment grade securities as measured by Standard & Poor's or an equivalent credit rating agency, or in unrated securities.

The fund may invest up to 40% of its assets in asset-backed securities, specifically whole business corporate loans, and covered bonds.

The fund may also invest directly or indirectly in securities (including in other asset classes), countries, regions, industries or currencies, collective investment schemes (including Schroder funds) and money market instruments and hold cash.

The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently (for more information please refer to section 6 of Appendix I of the prospectus). The fund may use leverage and take short positions.

Benchmark

The fund's performance should be assessed against its target benchmark of the ICE BofA Sterling 3-Month Government Bill Index plus 2.5% and compared against the Investment Association Sterling Strategic Bond sector average return.

Dealing Frequency

You may redeem your investment upon demand. This fund deals daily.

Distribution Policy

This unit class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the unit class.

Risk and reward profile

The risk and reward indicator

The risk category is based upon the fund's risk target and there is no guarantee that the fund will achieve it.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Risk factors

ABS and MBS risk: The fund may invest in mortgage or asset-backed securities. The underlying borrowers of these securities may not be able to pay back the full amount that they owe, which may result in losses to the fund.

Sustainable Investing Risk: The fund applies sustainability criteria in its selection of investments. This investment focus may limit the fund's exposure to companies, industries or sectors and the fund may forego investment opportunities that do not align with its sustainability criteria chosen by the investment manager. As investors may differ in their views of what constitutes sustainability, the fund may invest in companies that do not reflect the beliefs or values of any particular investor.

Credit risk: A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

Currency risk: The fund may lose value as a result of movements in foreign exchange rates, otherwise known as currency rates.

Derivatives risk: Derivatives, which are financial instruments deriving their value from an underlying asset, may be used to manage the portfolio efficiently. The fund may also materially invest in derivatives including using short selling and leverage techniques with the aim of making a return. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

High yield bond risk: High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk meaning greater uncertainty of returns.

Interest rate risk: The fund may lose value as a direct result of interest rate changes.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

Operational risk: Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

IBOR risk: The transition of the financial markets away from the use of interbank offered rates (IBORs) to alternative reference interest rates may impact the valuation of certain holdings and disrupt liquidity in certain instruments. This may impact the investment performance of the fund.

Charges

Exit charge None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges 0.40%

Charges taken from the fund under certain specific conditions

Performance fee

None

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2022 and may vary from year to year. The ongoing charge figure excludes portfolio transaction costs. The charges are mostly, if not exclusively, the Schroders Annual Charge (as may be discounted for retail unit classes depending on the size of the fund) but certain additional expenses may be charged as set out in the prospectus. The Schroders Annual Charge (without any discount) for this unit class of the fund is 0.40%. The fund's annual report for each financial year will include details on the exact charges made including any discounts.

Please see the prospectus for more details about the charges.

Past performance

Performance achieved between 2009 and 2017 was achieved in circumstances that no longer apply. The fund's objectives and benchmark were changed on 20 September 2017.

Please note that the fund's objective and benchmark were changed on 28 June 2021. The past performance in the above table is based on the fund's objective and benchmark (Target benchmark: 3 month GBP LIBOR plus 1%) in place prior to this date. From 28 June 2021 to 21 February 2022, this table will show past performance based on the benchmarks (Target benchmark: ICE BofA Sterling 3-Month Government Bill Index plus 1%). Going forward, this table will show past performance from this date based on the new objective and benchmarks (Target benchmark: ICE BofA Sterling 3-Month Government Bill Index plus 2.5%. Comparator benchmark: Investment Association Strategic Bond sector average return).

- L Accumulation GBP (GB00BDD27793)
- ICE BofA Sterling 3-Month Government Bill Index plus 2.5%
- Investment Association Strategic Bond sector average return
- 3 month LIBOR +1%
- ICE BofA Sterling 3-Month Government Bill Index plus 1%

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in British pound after the ongoing charges and the portfolio transaction costs have been paid.

The fund was launched on 05/09/2003.

The shareclass was launched on 01/10/2013.

Performance figures are only available since the launch of the respective unit class.

Practical information

Trustee: J. P. Morgan Europe Ltd.

Further Information: You can get further information about this fund, including the prospectus, latest annual report, any subsequent half-yearly reports and the latest price of units from www.schroders.com/ukinvestor and from Schroders, PO Box 1402, Sunderland, SR43 4AF, England, telephone 0800 182 2399. They are in English, free of charge.

Switches: Subject to conditions, you may apply to switch your investment into another unit class within this fund or in another Schroder fund. Please see the prospectus for more details.

Remuneration Policy: A summary of Schroders' remuneration policy and related disclosures is at www.schroders.com/remuneration-disclosures. A paper copy is available free of charge upon request.

The policy includes a description of how remuneration and benefits are calculated & the identities of persons responsible for awarding the remuneration and benefits.

Glossary: You can find an explanation of some of the terms used in this document at www.schroders.com/ukinvestor/glossary.

Benchmark: The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the fund aims to provide. The comparator benchmarks have been selected because the Investment Manager and the Manager believe that these benchmarks are a suitable comparison for performance purposes given the fund's investment objective and policy.

Stewart Investors Worldwide Sustainability Fund Class B (Accumulation) GBP

a sub-fund of First Sentier Investors ICVC (the Company)

ISIN GB00B7W30613

First Sentier Investors (UK) Funds Limited (trading as Stewart Investors), the authorised corporate director of the Company

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Objectives and investment policy

Objective: The Fund aims to achieve capital growth over the long term (at least five years).

Policy: The Fund invests in shares of companies around the world and that are listed on exchanges worldwide. The Fund may invest in both developed and emerging market countries. Emerging markets are countries that are progressing toward becoming advanced, usually shown by some development in financial markets, the existence of some form of stock exchange and a regulatory body.

The Fund invests in shares of high quality companies which are positioned to contribute to, and benefit from, sustainable development.

Investment decisions around high quality companies are based on three key points:

- Quality of management including integrity, attitude to environmental and social impacts, corporate management, long term performance and risk.
- Quality of the company including its social usefulness, their environmental impacts and efficiency and responsible business practices.
- Quality of the company's finances and their financial performance.

Sustainability is a key part of the approach.

The Fund may invest up to 10% in other funds.

The Fund will only use derivatives to reduce risk or to manage the Fund more efficiently in limited cases.

Strategy: The Manager's investment strategy is founded on the principle of stewardship, allocating capital to high quality companies with sound growth prospects and strong management teams. The Manager's investment style is inherently long-term and conservative, seeking to buy and hold high quality companies that can deliver acceptable returns over the long-term (at least five years).

Benchmark: The Fund's performance is compared against the value of the MSCI AC World Index and the Fund is included in the Investment Association's Global Sector.

The Fund's manager may use its discretion when deciding which investments should be held by the Fund.

The Fund is actively managed; investment of the Fund's assets is not constrained by the benchmark composition or sector requirements and the Fund's manager has discretion within the Fund's investment policy to invest in assets without regard to the benchmark.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within five years.

The Fund will not pay any income out; instead any income will be reflected in the value of your shares.

You can buy and sell shares in the Fund on any business day. As long as we receive your instruction before 12 noon (UK time), shares will be bought and sold at that day's price.

Risk and reward profile

- The synthetic risk reward indicator (the SRRRI) rating is not a measure of the risk of you losing the entire value of your investment but describes how much the value of the share class has gone up and down in the past. Where a share class has not yet launched, the SRRRI is calculated using representative data.
- The SRRRI rating is based on historical data which may not be a reliable indication of the future risks and rewards of the share class.
- We cannot guarantee that the rating of the share class will remain the same; it may change over time.
- Even the lowest rating 1 does not mean a risk free investment.
- On a scale of 1 (less risky) to 7 (more risky), this share class has a rating of 5 due to its past performance (or representative data) and the nature of

its investments. Categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level, and 6-7 a high level.

- Risk is taken in order to make a higher potential return; the more risk a fund takes, the higher the potential return but the greater the risk of loss.
 - The value of the Fund and its return is not guaranteed and may fall as well as rise. You may get back significantly less than you originally invested. Material risks not adequately captured by the SRRRI:
 - **Emerging market risk:** Emerging markets tend to be more sensitive to economic and political conditions than developed markets. Other factors include greater liquidity risk, restrictions on investment or transfer of assets, failed/delayed settlement and difficulties valuing securities.
 - **Currency risk:** the Fund invests in assets which are denominated in other currencies; changes in exchange rates will affect the value of the Fund and could create losses. Currency control decisions made by governments could affect the value of the Fund's investments and could cause the Fund to defer or suspend redemptions of its shares.
- For further information on risks, please refer to the Risk Factors section in the Company's prospectus.

Charges for this Fund

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	4.00%
Exit charge	N/A

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the fund over a year

Ongoing charge	0.67%
----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	N/A
-----------------	-----

The entry and exit charges shown are the maximum you will need to pay. In some cases you might pay less - you can find out the actual entry and exit charges from your financial adviser.

The ongoing charges figure shown here is an estimate of the charges and may vary from year to year. An estimate is being used following our periodic reassessment with effect from 01 December 2022. The figure excludes portfolio transaction costs which are paid from assets of the Fund and performance fees, if any. The next Company annual report for the financial year will include details on the exact charges made.

There are fees for switching between sub-funds. The fee for switching into the Fund is 0.5%.

Further information can be found in the Buying, Selling and Switching Shares section of the Company's prospectus.

Past performance

- Stewart Investors Worldwide Sustainability Fund
- MSCI AC World Net Index (GBP)
- Global Investment Association Sector

Past performance is not a reliable guide to future performance. The past performance shown here includes fees, any reinvested income and tax.

The Fund launched on 01 November 2012.

The Share Class launched on 01 November 2012. The past performance of the Share Class is calculated in GBP.

Practical information

Depository: The Bank of New York Mellon (International) Limited

Further information: The Fund forms part of the First Sentier Investors ICVC (the Company). The prospectus, annual and semi-annual reports of the Company as a whole are available free of charge on firstsentierinvestors.com or by contacting First Sentier Investors, PO Box 404, Darlington, DL1 9UZ. All documents are available in English.

Other practical information: The Fund's share price and other information about the Fund is available at firstsentierinvestors.com. The prospectus, annual and semi-annual reports contain information about all of the sub-funds and share classes of the Company.

Tax legislation: The Fund is subject to UK tax laws. This may have an impact on your personal tax position. For further details, please speak to your tax adviser.

Liability statement: First Sentier Investors (UK) Funds Limited (as management company) may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus for the Company.

Fund information: Each sub-fund of the Company is responsible for meeting its own debts. The sub-funds are segregated by law. This means that investments of the Fund cannot be used to pay the debts of the other sub-funds.

You can exchange shares in the Fund for shares in another sub-fund, which is called switching. There may be a charge for switching, as indicated above in 'Charges for this Fund'.

Remuneration: Information on the current remuneration policy of First Sentier Investors (UK) Funds Limited, including a description of how remuneration and benefits are calculated and the identity of persons responsible for awarding the remuneration and benefits, is available at firstsentierinvestors.com. A paper copy of this information is available free of charge upon request from First Sentier Investors, PO Box 404, Darlington, DL1 9UZ.

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

TB Guinness Sustainable Energy Fund, a sub-fund of the TB Guinness Investment Funds Y Accumulation shares GBP, ISIN: GB00BP5J6198

The Authorised Corporate Director of this Fund is: T. Bailey Fund Services Limited.

Objectives and Investment Policy

The Fund aims to provide investors with capital growth over the long term (7 to 10 years).

At least 80% of the Fund will be invested in global (including emerging markets) equity securities of companies involved in the sustainable energy or energy technology sectors with a market capitalisation in excess of US\$500 million that: i) contribute towards global decarbonisation; ii) do not significantly harm other sustainable investment objectives; and iii) follow good corporate governance practices. Such equity securities include shares, securities convertible into shares, and (up to 5%) warrants. Sustainable energy includes, but is not limited to, energy derived from sources such as solar or wind power, hydroelectricity, tidal flow, wave movements, geothermal heat, biomass or biofuels. Energy technology includes technologies that enable these sources to be trapped and also various manners of storage and transportation of energy, including hydrogen and other types of fuel cells, batteries and flywheels, as well as technologies that conserve or enable more efficient use of energy.

The decarbonising impact associated with the Fund's investee companies is measured by estimating the carbon dioxide emissions displaced through use of their products and services, which is set against the carbon cost of their manufacturing operations, to produce the net annual impact for carbon emissions displaced.

The Fund is actively managed and in selecting investments for the Fund, the Investment Adviser will take into account its Baseline Exclusion Criteria (as set out in section 12 of the Prospectus) followed by the Fund specific Sustainability Criteria (as set out in Appendix D of the Prospectus) which is subject to change from time to time.

The Investment Adviser implements this strategy on a continuous basis and prepares periodic reports to document the decarbonising impact of the companies held in the Fund.

The Investment Adviser will monitor the investments held and will, using its discretion and acting in the best interests of investors, seek, at the timing of its choice, to dispose of those holdings where the company no longer meets the Investment Adviser's criteria for the investment universe.

To the extent not fully invested, the Fund may invest in cash-like instruments, such as money market instruments, deposits, cash and near cash and up to 10% in collective investment schemes (which may include those managed by the ACD and its associates). Such investments are not intended to be more than 20% in aggregate of the value of the Fund.

The Fund will have a concentrated portfolio and will typically hold between 20 and 40 stocks.

The Fund may use derivatives to reduce risk or cost or to generate additional capital or income at proportionate risk (known as "Efficient Portfolio Management"). It is intended that the use of derivatives will be limited.

Investors can redeem shares on demand, at the daily valuation point of 12 noon (UK time) when this is a normal business day in the UK. For accumulation shares, any income received is reflected in the price of the shares.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money in the short-term (within 5 years). The Fund should be viewed as a long-term investment only.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. As the Fund launched on 30 December 2022, the indicator has been calculated based in part on the volatility of the Investment Association's Commodity/ Natural Resources sector average over the last five years (in total return and GBP terms).

It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

- The Fund is in the above risk category because it invests in global shares, which have experienced high rises and falls in value in the past 5 years.
- The lowest category does not mean a fund is a risk free investment.
- The value of investments may go down as well as up in response to general market conditions and the performance of the assets held. Investors may not get back the money which they invested.
- There is no guarantee that the Fund will meet its stated objectives.
- The Fund invests in global markets, with some regions being regarded as more risky.
- The Fund invests in emerging markets which may carry more risks than more developed jurisdictions.
- The movement in exchange rates may lead to further changes in the value of investments and the income from them.
- A limited number of investments may be held which has the potential to increase volatility of performance.
- There is a risk that any company providing services such as safekeeping of assets or acting as counterparty to derivatives may become insolvent, which may cause losses to the Fund.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	nil
Exit charge	nil
These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.	
Charges taken from the Fund over a year	
Ongoing charges	0.67%
Charges taken from the Fund under specific conditions	
Performance fee	nil

- The ongoing charges figure is fixed at 0.67%
- It excludes payments related to interest on borrowing and portfolio transaction costs, except in the case of transaction fees payable to the custodian.
- Ongoing charges are deducted from capital which will assist the income yield but may constrain capital growth. The charges you pay are used to pay the costs of running the Fund.
- For details of the actual charges, please contact your financial adviser/distributor.

Past Performance (Fund launch date 30 December 2022)

As the launch date of the Fund is 30 December 2022, the Fund does not have performance data for one complete calendar year, so there is insufficient data available to provide a useful indication of past performance to investors.

Practical Information

- Further information about the Fund including the Prospectus, Supplementary Information document, latest annual and half-yearly reports is available free of charge at www.tbaileyfs.co.uk. All documents are available in English only.
- This Key Investor Information is prepared for TB Guinness Sustainable Energy Fund, a compartment of the TB Guinness Investment Funds, a UCITS. The Prospectus and periodic reports referred to above are prepared for the entire UCITS.
