AXA Sterling Credit Short Duration Bond Fund

A Sub-Fund of AXA Fixed Interest Investment ICVC

Share class : AXA Sterling Credit Short Duration Bond Fund Z (G) Income GBP (ISIN : GBO0B5VL0B78)

This Sub-Fund is managed by AXA Investment Managers UK Limited, part of the AXA IM Group

Objective and Investment Policy

Investment Objective

The aim of the Fund is to provide income combined with any capital growth over the short term (being a period of three years or less).

Investment Policy

The Fund invests at least 70% of its Net Asset Value in sterling-denominated investment grade bonds (meaning bonds with a Standard & Poor's rating of at least BBB- or such equivalent rating by Moody's or Fitch), which are with a bias towards shorter maturities (where the full repayment of the bond by the company is expected to be less than five years). The fund manager seeks to reduce the effect of credit risk through diversification and its analysis and selection of bonds.

To avoid investing in bonds issued by companies which present excessive degrees of environmental, social and governance (ESG) risk, the fund manager applies AXA Investment Manager's (AXA IM's) sector specific investment guidelines relating to responsible investment to the Fund. Such guidelines exclude investment in soft commodity derivatives or exposure to certain companies based on their involvement in specific sectors (such as unsustainable palm oil production, controversial weapons and climate risks). The fund manager also applies the AXA IM's ESG Standards policy. This policy excludes investment in companies based on: tobacco production; manufacture of white phosphorus weapons; certain criteria relating to human rights and anti-corruption as well as other ESG factors. The AXA IM's ESG Standards policy and AXA IM's sector specific investment guidelines are subject to change and the latest copies are available from the fund manager on request.

Further, in selecting investments, the fund manager will, in addition to the application of the above policies, take into account the issuer's ESG score as one factor within its broader analysis of the issuer to make selections which are expected to generate an income return. It is, however, just one component of the fund manager's investment process and ESG scores are not the principal driver of investment decision making. The fund manager believes that issuers with higher ESG scores manage risk associated with ESG issues more effectively, contributing to better financial performance of such issuers in the long term. ESG scores are obtained from our selected external provider(s) and may be adjusted by the fund manager using its own research. The fund manager will not invest in bonds with the lowest ESG scores, save in exceptional circumstances.

If the fund manager deems that an investment no longer meets the criteria set out in this investment policy or its expectations in terms of that investment's prospects for achieving income and capital growth, the fund

manager will disinvest as soon as practicable having regard to the best interests of the Fund's investors and in accordance with its best execution policy.

The Fund may also invest in other transferable securities, cash, deposits, units in collective investment schemes (including funds that are managed by the fund manager or its associates) and money market instruments. The Fund may use derivatives for investment purposes as well as for Efficient Portfolio Management. Use may be made of stock lending, borrowing, cash holdings, hedging and other investment techniques permitted in the applicable Financial Conduct Authority Rules.

The Fund does not have a benchmark to measure its financial performance. SONIA Compounded Index may be used by investors to compare the Fund's financial performance, which the fund manager believes best reflects the outcome of the Fund's short duration investment strategy when used to compare the performance of the Fund over a minimum period of three years. Investors should note that the SONIA Compounded Index is a cash-based index, which the fund manager has selected as an appropriate comparator given the absence of a suitable bond index, and therefore does not take account of the specific risks relevant to the Fund.

Where bonds are denominated in a currency other than Sterling, the Fund aims to reduce the risk of movements in exchange rates between such currency and Sterling through the use of derivatives (financial instruments which derive their value from the value of other assets).

Income

Income from investments in the Fund may be paid out to you directly if you hold income shares.

Fund Currency

The reference currency of the Fund is Sterling.

Investment Horizon

This Fund may not be suitable for investors who plan to withdraw their contribution within three years.

Processing of subscription and redemption orders

Your orders to buy, sell or transfer shares in the Fund, must be received by the Administrator by 12 noon on any working day to receive that day's Fund price. Also this Fund has another Valuation Point on the last business day of each month and therefore an additional dealing cut off at 4.30pm on that day only. Please note that if your order is placed by an intermediary or Financial Adviser, they may require extra processing time.

The Net Asset Value of this Fund is calculated on a daily basis.

Minimum initial investment: £100,000

Minimum subsequent investment: £5,000

Risk and Reward Profile

The risk category is calculated using historical performance data and may not be a reliable indicator of the Fund's future risk profile.

The risk category shown is not guaranteed and may shift over time.

The lowest category does not mean risk free.

Why is this Fund in this category?

The capital of the Sub-Fund is not guaranteed. The Sub-Fund is invested in financial markets and uses techniques and instruments which are subject to low levels of variation under normal market conditions but, which may still result in losses.

Additional Risks (risks materially relevant to the fund which are not adequately captured by the indicator)

Counterparty Risk: failure by any counterparty to a transaction (e.g. derivatives and securities lending) with the Fund to meet its obligations may adversely affect the value of the Fund. The Fund may receive assets from the counterparty to protect against any such adverse effect but there is a risk that the value of such assets at the time of the failure would be insufficient to cover the loss to the Fund.

Derivatives: derivatives can be more volatile than the underlying asset and may result in greater fluctuations to the Fund's value. In the case of derivatives not traded on an exchange they may be subject to additional counterparty and liquidity risk.

Interest Rate Risk: fluctuations in interest rates will change the value of

bonds, impacting the value of the Fund. Generally, when interest rates rise, the value of the bonds fall and vice versa. The valuation of bonds will also change according to market perceptions of future movements in interest rates.

Liquidity Risk: some investments may trade infrequently and in small volumes. As a result the Fund manager may not be able to sell at a preferred time or volume or at a price close to the last quoted valuation. The Fund manager may be forced to sell a number of such investments as a result of a large redemption of shares in the Fund. Depending on market conditions, this could lead to a significant drop in the Fund's value and in extreme circumstances lead the Fund to be unable to meet its redemptions.

Credit Risk: the risk that an issuer of bonds will default on its obligations to pay income or repay capital, resulting in a decrease in Fund value. The value of a bond (and, subsequently, the Fund) is also affected by changes in market perceptions of the risk of future default. Investment grade issuers are regarded as less likely to default than issuers of high yield bonds.

Further explanation of the risks associated with an investment in this Fund can be found in the prospectus.

AXA Sterling Credit Short Duration Bond Fund

Charges

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	none
Exit charge	none

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the fund over a year

Ongoing Charges	0.40%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	none
-----------------	------

The entry and exit charges shown are maximum figures. In some cases, you might pay less - you can find this out from your Financial Adviser.

The ongoing charges figure is based on expenses for the previous twelve month period. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more information about charges, please refer to AXA IM website: <https://www.axa-im.co.uk/important-information/fund-charges-and-costs> as well as the Fees and Expenses section of the prospectus which is available at <https://funds.axa-im.com>.

Past Performance

■ AXA Sterling Credit Short Duration Bond Fund Z (G)
Income GBP (ISIN : GB00B5VL0B78)

Past performance is not a reliable indicator of future results.

Past performance is shown after the deduction of ongoing charges. Any entry/exit fees are excluded from the calculation.

The Fund was launched on 12/11/2010 and the share class in 2010.

Past performance has been calculated in Sterling and is expressed as a percentage change of the Fund's Net Asset Value at each year end.

Practical Information

London, E14 5HQ

Further information:

More detailed information on this Fund, such as the prospectus as well as the latest annual and semi-annual report, can be obtained free of charge from the Fund's Management Company, the Administrator, the Fund's distributors, online at <https://www.axa-im.co.uk>, or by calling 0345 777 5511. These documents are available in English.

More share classes are available for this Sub-Fund. For more details about other share classes, please refer to the prospectus, which is available at <https://funds.axa-im.com/>.

Details of the up to date remuneration policy of the Management Company are published online at www.axa-im.com/important-information/remuneration-policy.

This includes the description of how remuneration and benefits are awarded for employees, and information on the remuneration committee. The Management Company provides a paper copy free of charge upon request. A glossary of some of the terms used in this document can be found online at <https://retail.axa-im.co.uk/glossary>

Each Sub-Fund corresponds to a distinct part of the assets and liabilities of the UCITS. As a consequence, the assets of each Sub-Fund are segregated from the assets of the other Sub-Funds and exclusively available to satisfy the rights of investors in relation to that Sub-Fund and the right of creditors whose claims have arisen in connection with the creation, the operation or the liquidation of that Sub-Fund.

Net Asset Value Publication:

The Net Asset Value per share is available at <https://www.axa-im.co.uk> and at the registered office of the Fund's Management Company.

Tax Legislation:

The Fund is subject to the tax laws and regulations of the United Kingdom. Depending on your own country of residence this might have an impact on your investments. For further details, you should consult a tax adviser.

Liability Statement:

AXA Investment Managers UK Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus for the Fund.

Switching between Funds:

Shareholders may apply for their shares to be converted into shares of another Fund, provided that the conditions for accessing the target share class are fulfilled. Investment would be at the Net Asset Value of the target fund, calculated at the applicable Valuation Point following receipt of the conversion request.

The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus.

For more details about how to switch Fund, please refer to the section in the Fund's prospectus entitled "Can I switch or convert shares and what are the implications?", which is available at <https://funds.axa-im.com>

AXA US Short Duration High Yield Fund

A Sub-Fund of AXA Fixed Interest Investment ICVC

Share class : AXA US Short Duration High Yield Fund Z (G) Income GBP (ISIN : GB00B5TX5Q59)

This Sub-Fund is managed by AXA Investment Managers UK Limited, part of the AXA IM Group

Objective and Investment Policy

Investment Objective

The aim of the Fund is to generate income by investing in high yield debt securities (being sub-investment grade corporate bonds) while seeking to avoid the risk of default.

Investment Policy

The Fund aims to deliver a return by investing at least 60 per cent of its Net Asset Value in high yield bonds (being sub-investment grade corporate bonds, meaning bonds with a rating of BB+ and below by Standard & Poor or equivalent rating by Moody's or Fitch) with a bias towards shorter maturities (where the full repayment of the bond by the company is expected to be less than three years), issued primarily by companies with their predominant place of business in the US. The Fund may also invest in such bonds denominated in US Dollars and issued by non-US companies. The fund manager seeks to reduce the effect of credit risk through diversification and its analysis and selection of bonds.

To avoid investing in bonds issued by companies which present excessive degrees of environmental, social and governance (ESG) risk, the fund manager applies AXA Investment Manager's (AXA IM's) sector specific investment guidelines relating to responsible investment to the Fund. Such guidelines exclude investment in soft commodity derivatives or exposure to certain companies based on their involvement in specific sectors (such as unsustainable palm oil production, controversial weapons and climate risks). The fund manager also applies the AXA IM's ESG Standards policy. This policy excludes investment in companies based on: tobacco production; manufacture of white phosphorus weapons; certain criteria relating to human rights and anti-corruption as well as other ESG factors. The AXA IM's ESG Standards policy and AXA IM's sector specific investment guidelines are subject to change and the latest copies are available from the fund manager on request.

Further, in selecting investments, the fund manager will, in addition to the application of the above policies, take into account the issuer's ESG score as one factor within its broader analysis of the issuer to make selections which are expected to generate an income return over the long term. It is, however, just one component of the fund manager's investment process and ESG scores are not the principal driver of investment decision making. The fund manager believes that issuers with higher ESG scores manage risk associated with ESG issues more effectively, contributing to better financial performance of such issuers in the long term. ESG scores are obtained from our selected external provider(s) and may be adjusted by the fund manager using its own research. The fund manager will not invest in bonds with the

lowest ESG scores, save in exceptional circumstances.

If the fund manager deems that an investment no longer meets the criteria set out in this investment policy or its expectations in terms of that investment's prospects for achieving income and capital growth, the fund manager will disinvest as soon as practicable having regard to the best interests of the Fund's investors and in accordance with its best execution policy.

The Fund does not have a benchmark to measure its financial performance. SONIA Compounded Index may be used by investors to compare the Fund's financial performance, which the fund manager believes best reflects the outcome of the Fund's short duration investment strategy when used to compare the performance of the Fund over a minimum period of three years. Investors should note that the SONIA Compounded Index is a cash-based index, which the fund manager has selected as an appropriate comparator given the absence of a suitable bond index, and therefore does not take account of the specific risks relevant to the Fund. The Fund may also invest in other transferable securities (including, but not limited to, high yield debt securities, investment grade debt securities, convertibles, tbills), cash, deposits, units in collective investment schemes (including funds that are managed by the fund manager or its associates) and money market instruments. The Fund may use derivatives for investment purposes as well as for Efficient Portfolio Management. Use may be made of stock lending, borrowing, cash holdings, hedging and other investment techniques permitted in the applicable Financial Conduct Authority Rules.

Income

Income from investments in the Fund may be paid out to you directly if you hold income shares.

Fund Currency

The reference currency of the Fund is Sterling.

Investment Horizon

This Fund may not be suitable for investors who plan to withdraw their contribution within three years.

Processing of subscription and redemption orders

Your orders to buy, sell or transfer shares in the Fund, must be received by the Administrator by 12 noon on any working day to receive that day's Fund price. Please note that if your order is placed by an intermediary or Financial Adviser, they may require extra processing time.

The Net Asset Value of this Fund is calculated on a daily basis.

Minimum initial investment: £1,000,000

Minimum subsequent investment: £5,000

Risk and Reward Profile

The risk category is calculated using historical performance data and may not be a reliable indicator of the Fund's future risk profile.

The risk category shown is not guaranteed and may shift over time.

The lowest category does not mean risk free.

Why is this Fund in this category?

The capital of the Sub-Fund is not guaranteed. The Sub-Fund is invested in financial markets and uses techniques and instruments which are subject to some levels of variation, which may result in gains or losses.

Additional Risks (risks materially relevant to the fund which are not adequately captured by the indicator)

Counterparty Risk: failure by any counterparty to a transaction (e.g. derivatives and securities lending) with the Fund to meet its obligations may adversely affect the value of the Fund. The Fund may receive assets from the counterparty to protect against any such adverse effect but there is a risk that the value of such assets at the time of the failure would be insufficient to cover the loss to the Fund.

Derivatives: derivatives can be more volatile than the underlying asset and may result in greater fluctuations to the Fund's value. In the case of derivatives not traded on an exchange they may be subject to additional counterparty and liquidity risk.

Hedging Risk: Currency Hedging within the Fund seeks to reduce the impact of exchange rate movements of the investments' currencies relative to the fund's base currency. Over a period of time the hedging strategy itself may

create a positive or negative impact to the value of the Fund, mainly due to differences in short-term interest rates between the currencies.

Interest Rate Risk: fluctuations in interest rates will change the value of bonds, impacting the value of the Fund. Generally, when interest rates rise, the value of the bonds fall and vice versa. The valuation of bonds will also change according to market perceptions of future movements in interest rates.

Liquidity Risk: some investments may trade infrequently and in small volumes. As a result the Fund manager may not be able to sell at a preferred time or volume or at a price close to the last quoted valuation. The Fund manager may be forced to sell a number of such investments as a result of a large redemption of shares in the Fund. Depending on market conditions, this could lead to a significant drop in the Fund's value and in extreme circumstances lead the Fund to be unable to meet its redemptions.

Credit Risk: the risk that an issuer of bonds will default on its obligations to pay income or repay capital, resulting in a decrease in Fund value. The value of a bond (and, subsequently, the Fund) is also affected by changes in market perceptions of the risk of future default. The risk of default for high yield bonds may be greater.

Further explanation of the risks associated with an investment in this Fund can be found in the prospectus.

BlackRock Natural Resources Growth & Income Fund

Class A Income GBP

ISIN: GB00B3NP2M84

Manager: BlackRock Fund Managers Limited

Objectives and Investment Policy

- ▶ The Fund aims to provide a return on your investment (generated through an increase in the value of the assets held by the Fund and/or income received from those assets) with an above average income from its equity investments (i.e. shares), compared to the income produced by the natural resources sector. The S&P Global Natural Resources Index is currently used as the reference measure for the average level of income yield.
- ▶ The Fund invests at least 70% of its total assets in the equity securities (e.g. shares) of companies whose predominant economic activity is in the natural resources sector which includes, but is not limited to, mining, agriculture and energy.
- ▶ The Fund has the flexibility to invest outside of the asset class.
- ▶ The investment adviser (IA) may use derivatives (i.e. investments the prices of which are based on one or more underlying assets) to help achieve the Fund's investment objective and for efficient portfolio management.
- ▶ The Fund may, via derivatives, generate varying amounts of market leverage (i.e. where the Fund gains market exposure in excess of the value of its assets).
- ▶ The Fund is actively managed and the IA has discretion to select the Fund's investments. In doing so, the IA will refer to the S&P Global Natural Resources Index (the "Index") when constructing the Fund's portfolio, and also for risk management purposes to ensure that the active risk (i.e. degree of deviation from the index) taken by the Fund remains appropriate given the Fund's investment objective and policy. The IA is not bound by the components or weighting of the Index when selecting investments. The IA may also use its discretion to invest in securities not included in the Index in order to take advantage of specific investment opportunities. However, the industry sector requirements of the investment objective and policy may have the effect of limiting the extent to which the portfolio holdings will deviate from the Index. The Index should be used by unitholders to compare the performance of the Fund.
- ▶ Recommendation: This Fund may not be appropriate for short-term investment.
- ▶ Your units will be income units (i.e. dividend income will be paid quarterly on the units).
- ▶ Your units will be denominated in Sterling, the Fund's base currency.
- ▶ You can buy and sell your units daily. The minimum initial investment for this unit class is £500.

For more information on the Fund, share/unit classes, risks and charges, please see the Fund's prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

- ▶ This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
 - ▶ The risk category shown is not guaranteed and may change over time.
 - ▶ The lowest category does not mean risk free.
 - ▶ The Fund is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
 - Investments in the natural resources securities are subject to environmental or sustainability concerns, taxes, government regulation, price and supply fluctuations.
 - Risk to Capital Growth: The Fund may pursue investment strategies using derivatives in order to generate income which may have the effect of reducing capital and the potential for long-term capital growth as well as increasing any capital losses.
- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure is based on expenses for the twelve month period ending 31 December 2022. This figure may vary from year to year. It excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

One-off charges taken before or after you invest	
Entry Charge	5.00%
Exit Charge	None*

This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out.

Charges taken from the Fund over each year	
Ongoing Charges	1.55%**
Charges taken from the Fund under certain conditions	
Performance Fee	None

Past Performance

Past performance is not a guide to future performance.

The chart shows the Fund's annual performance in GBP for each full calendar year over the period displayed in the chart. It is expressed as a percentage change of the Fund's net asset value at each year-end. The Fund was launched in 2011. The unit class was launched in 2011.

Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.

†S&P Global Natural Resources Index (GBP)

It is not intended that the performance of the Fund will track the index.

Historic performance to 31 December 2022

Practical Information

- ▶ The trustee and depositary of the Fund is The Bank of New York Mellon (International) Limited, which also acts as custodian.
- ▶ Further information about the Fund can be obtained from the latest annual report and half-yearly reports of the Fund. These documents are available free of charge in English. These can be found, along with other information, such as unit prices, on the BlackRock website at www.blackrock.com or by calling Investor Services on 0800 44 55 22.
- ▶ Investors should note that the tax legislation that applies to the Fund may have an impact on the personal tax position of your investment in the Fund.
- ▶ BlackRock Fund Managers Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Fund's prospectus.
- ▶ The Remuneration Policy of the Management Company, which describes how remuneration and benefits are determined and awarded, and the associated governance arrangements, is available at www.blackrock.com/Remunerationpolicy or on request from the registered office of the Management Company.

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

BNY MELLON
INVESTMENT MANAGEMENT

BNY Mellon Global Dynamic Bond Fund

INSTITUTIONAL SHARES W (INCOME) (ISIN: GB00B801BG18)

a sub-fund of BNY Mellon Investment Funds. This Fund is managed by BNY Mellon Fund Managers Limited

Objectives and Investment Policy

OBJECTIVE

To maximise the total return, comprising income and capital growth. The Fund is managed to seek a minimum return of cash (SONIA (30-day compounded)) +2% per annum over five years before fees. In doing so, it aims to achieve a positive return on a rolling three year basis (meaning a period of three years, no matter which day you start on). However, a positive return is not guaranteed and a capital loss may occur.

POLICY

The Fund will:

- invest anywhere in the world;
- invest in emerging markets;
- invest predominantly (meaning at least 75% of the portfolio) in a broad universe of bonds and similar debt investments (i.e. bonds issued by governments, companies and other public entities);
- invest in bonds which at the time of purchase may have a minimum credit rating of BBB- as rated by Standard & Poor's (or equivalent recognised rating agency) or if unrated, have been determined by the Investment Manager to be of an equivalent quality;
- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Fund's investment objective. The Fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and
- limit investment in other collective investment schemes to 10%.

The Fund may:

- invest more than 35% of its assets in government and public securities (those issued or guaranteed by a single state, local authority or public international body); and
- invest significantly in cash and cash-like investments.

Benchmark: The Fund will measure its performance before fees against SONIA (30-day compounded) +2% per annum over five years as a target benchmark (the "Benchmark").

SONIA is a nearly risk-free rate meaning no bank credit risk is included, the rate can rise or fall as a result of central bank policy decisions or changing economic conditions. The Fund will use the Benchmark as a target for the Fund's performance to match or exceed because it is representative of sterling cash and the Fund's investment objective is to seek a minimum return of sterling cash +2% per annum.

The Fund is actively managed, which means the Investment Manager has discretion over the selection of investments, subject to the investment objective and policies as disclosed in the Prospectus.

OTHER INFORMATION

Treatment of income: income from investments will be paid to shareholders quarterly on or before 28 February, 31 May, 31 August and 30 November.

Dealing: you can buy and sell your shares in the Fund between 9:00 and 17:00 (UK time) on each business day in England and Wales. Instructions received before 12:00 will receive the price quoted on that day. The minimum initial investment for this share class is GBP 500,000.

Risk and Reward Profile

Lower risk
Potentially lower reward

Higher risk
Potentially higher reward

1 2 3 4 5 6 7

We have calculated the risk and reward category, as shown above, using a method of calculation derived from EU rules. It is based on the rate at which the value of the Fund has moved up and down in the past (i.e. volatility) and is not a guide to the future risk and reward category of the Fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment.

This Fund is in category 3 because its historical value has shown moderately low volatility. With a Fund of category 3, you have a moderately low risk of losing money but your chance for gains is also moderately low.

THE FOLLOWING RISKS MAY NOT BE FULLY CAPTURED BY THE RISK AND REWARD INDICATOR:

- **Objective/Performance Risk:** There is no guarantee that the Fund will achieve its objectives.
- **Performance Aim Risk:** The performance aim is not a guarantee, may not be achieved and a capital loss may occur. Funds which have a higher performance aim generally take more risk to achieve this and so have a greater potential for returns to vary significantly.

- **Currency Risk:** This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.
- **Geographic Concentration Risk:** Where the Fund invests significantly in a single market, this may have a material impact on the value of the Fund.
- **Derivatives Risk:** Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.
- **Changes in Interest Rates & Inflation Risk:** Investments in bonds/money market securities are affected by interest rates and inflation trends which may negatively affect the value of the Fund.
- **Credit Ratings and Unrated Securities Risk:** Bonds with a low credit rating or unrated bonds have a greater risk of default. These investments may negatively affect the value of the Fund.
- **Credit Risk:** The issuer of a security held by the Fund may not pay income or repay capital to the Fund when due.
- **Emerging Markets Risk:** Emerging Markets have additional risks due to less-developed market practices.
- **Charges to Capital:** The Fund takes its charges from the capital of the Fund. Investors should be aware that this has the effect of lowering the capital value of your investment and limiting the potential for future capital growth. On redemption, you may not receive back the full amount you initially invested.

- **China Interbank Bond Market and Bond Connect risk:** The Fund may invest in China interbank bond market through connection between the related Mainland and Hong Kong financial infrastructure institutions. These may be subject to regulatory changes, settlement risk and quota limitations. An operational constraint such as a suspension in trading could negatively affect the Fund's ability to achieve its investment objective.
- **CoCo's Risk:** Contingent Convertible Securities (CoCo's) convert from debt to equity when the issuer's capital drops below a pre-defined level. This may result in the security converting into equities at a

discounted share price, the value of the security being written down, temporarily or permanently, and/or coupon payments ceasing or being deferred.

- **Counterparty Risk:** The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.

A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".

Charges

The charges cover the costs of running the Fund, including the costs of marketing and selling. These charges reduce the potential growth of your investment.

ONE-OFF CHARGES TAKEN BEFORE OR AFTER YOU INVEST

Entry charge	0.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

CHARGES TAKEN FROM THE FUND OVER A YEAR

Ongoing charge	0.55%
----------------	--------------

CHARGES TAKEN FROM THE FUND UNDER CERTAIN SPECIFIC CONDITIONS

Performance fee	None
-----------------	-------------

The ongoing charge is based on expenses calculated on 31 December 2022. This may vary from year to year. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid when buying or selling units in another mutual fund.

More information about charges is available in the "Fees and Expenses" section of the Prospectus.

Past Performance

The chart includes all charges except entry charges.

Fund launch date - 28 April 2006.

Share class launch date - 3 September 2012.

Performance of this share class is shown in GBP.

Performance of the Benchmark is shown in GBP.

Past performance is not a guide to future performance.

Effective 1st October 2021, the benchmark changed from the London Interbank Offered Rate (LIBOR) to the Sterling Overnight Index Average (SONIA). All benchmark past performance prior to this date was calculated against LIBOR.

Practical Information

Documents: The Fund is a sub-fund (part) of BNY Mellon Investment Funds ("BNY MIF"), an umbrella structure comprising different sub-funds. This document is specific to the Fund and share class stated at the beginning of this document. Copies of the Prospectus, annual and semi-annual reports which are prepared for the umbrella may be obtained free of charge from www.bnymellonim.com or from BNY Mellon Investment Management EMEA Limited, BNY Mellon Centre, 160 Queen Victoria Street, London EC4V 4LA. These documents are available in English, German and Spanish.

Share price: The latest share price and other information, including how to buy or sell shares, are available from the website and address given above. Other share classes are offered by the Fund as set out in the Prospectus.

Switching: Investors may switch shares in the Fund for shares in other sub-funds of BNY MIF provided they satisfy the criteria applicable to investment in other sub-funds. Further information on switching is contained the "Switching" section of the Prospectus.

Legal status: The assets of the Fund belong exclusively to that sub-fund and may not be used to discharge the liabilities of or claims

against any other person or body, including BNY MIF or any other sub-fund within the umbrella.

Liability statement: BNY Mellon Fund Managers Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the Fund.

Depositary: NatWest Trustee and Depositary Services Limited.

Tax: The tax legislation of the Fund's domicile may have an impact on your personal tax position. For further details, please speak to an adviser.

Remuneration Policy: Details of the up-to-date remuneration policy of BNY Mellon Fund Managers Limited including, but not limited to, a description of how remuneration and benefits are calculated and the identity of persons responsible for awarding the remuneration and benefits are available on www.bnymellonim.com. A paper copy will be made available free of charge upon request.

Index Providers: Further information about the index providers is set out under 'Benchmark Provider Disclaimers' in the Prospectus.

FTF ClearBridge Global Infrastructure Income Fund

Class W (inc) GBP-H2 • ISIN GB00BMF7D886 • A sub-fund of Franklin Templeton Funds
The management company is Franklin Templeton Fund Management Limited.

Objectives and Investment Policy

The Fund's primary aim is to generate income. The Fund also seeks to grow in value by more than the OECD G7 Inflation Index + 5.5%, from a combination of income and investment growth, over five year rolling periods, before all fees and costs are deducted.

There is no guarantee that the Fund will achieve its objective over this or any other time period. Capital invested is at risk and you may get back less than you paid in.

The Fund invests at least 80% of the Fund's assets in a diverse range of shares of companies listed on the stock exchanges of developed countries. Such companies will operate across a variety of infrastructure sub-sectors, which may include gas, electricity, water, toll-roads, airports, rail and communication, anywhere in the world.

Up to 20% of the Fund's assets may be invested in shares of companies, including depositary receipts (a type of listed security which enables investors to hold shares in foreign companies), issued by companies in emerging markets (countries whose economy and financial markets are still developing).

The Fund may also invest in recently issued shares of companies which are not yet listed but which are expected to be listed within 12 months of purchase.

The Fund can use derivatives for efficient portfolio management (managing the Fund in a way that is designed to reduce risk or cost and/or generate extra income or growth). However, the Fund can introduce more speculative use of derivatives in the future on 60 days' notice to investors. Derivatives are financial contracts whose value is linked to the price of another asset (e.g. indices, interest rates, share prices or currencies). Up to 10% of the Fund may be invested in derivatives and recently issued securities.

The Fund usually invests in shares of around 30 – 60 companies, although the Investment Manager may invest in fewer or more companies where it considers this to be in the interests of the Fund.

While the Fund will normally be invested in accordance with the limits set out above, the Investment Manager has the freedom to invest outside of these limits, sometimes significantly, where the Investment Manager considers that, due to prevailing market conditions, it is in the interests of the Fund and its shareholders to do so.

In addition, the Fund may also invest a proportion of its portfolio in other transferable securities, cash and cash equivalents, money market instruments and other collective investment schemes (which may include collective investment schemes operated by the ACD or any of its associates).

The Investment Manager selects securities based on their potential return and risk characteristics and role in achieving the Fund's investment objective. The portfolio is not constrained by any market index. The Investment Manager seeks to select infrastructure and utility companies which operate under a regulatory regime, or concession arrangement which provides the Investment Manager with a predictable cash flow and minimum yield. In considering yield, the Investment Manager looks at the dividend yield, the dividend per share expectations over a five year period, and the relationship of a company's dividends and cash flows, over an estimated holding period. The Investment Manager has the freedom to choose

securities that their research indicates have the strongest potential to meet the Fund's objective. The Investment Manager integrates financial and non-financial considerations in its assessment of a prospective investment. In selecting the Fund's investments, the Investment Manager assesses prospective investments against various environmental, social and governance ("ESG") factors, depending on the sector of the investee company, for example:

- Environmental factors, such as a company's environmental practices, greenhouse gas emissions and energy efficiency initiatives.
- Social factors such as a company's approach to community relations, occupational health and safety and reliability and pricing of services.
- Governance factors such as the governance structure of the company, management incentives and the Fund's alignment with management, board and other shareholders of the company.

These ESG factors are used to inform the Investment Manager's wider assessment of the value and financial attractiveness of each potential investment and exposures are adjusted accordingly. In addition, the Investment Manager assesses an investment's ESG credentials both at the point of proposed investment and in terms of projected credentials in 5 years' time, allowing the Investment Manager to identify investments which are expected to improve ESG credentials over time. The Investment Manager also uses the results of these assessments to inform its strategy for engagement with companies included in the portfolio.

The Fund will not invest in:

- Companies that derive a significant amount of their revenues (10% or more) from the extraction or production of fossil fuels.
- Companies involved in the production, sale or distribution of dedicated and key components of anti-personnel mines and cluster munitions.
- Companies in the following non-infrastructure sectors: mining, explosives, alcohol and gambling.
- Companies that generate more than 5% of their revenues from tobacco.

You may request the sale of your shares in the Fund on any UK business day.

For the income share class shown in this document, dividend income is distributed to investors.

For further information on the Objectives and Investment Policy of the Fund, please refer to the "Investment Objectives and Policies of the Funds" section of the current prospectus of Franklin Templeton Funds.

Terms to Understand

Hedging: this share class is hedged and aims to minimise, as far as possible, the currency risk. In particular, it aims to reduce the impact of exchange rate fluctuations between the Fund's base currency and the currency/ies of securities held by the Fund. Please refer to the Fund's prospectus and the following document which set out further information relating to hedging strategies:
<https://www.franklintempleton.co.uk/resources-and-literature/education/a-guide-to-hedged-share-classes>

Shares of companies (equities): securities that represent an ownership stake in a company.

Transferable securities: investments such as shares or debt that can be bought and sold between investors.

Risk and Reward Profile

What does this indicator mean and what are its limits?

This indicator is designed to provide you with a measure of the price movement of this share class based on historical behavior.

Historical data may not be a reliable indication of the future risk profile of the Fund. The category shown is not guaranteed to remain unchanged and may shift over time.

The lowest category does not mean risk free.

Why is the Fund in this specific category?

The Fund does not offer any capital guarantee or protection and you may not get back the amount invested. The Fund is in its risk/reward category because a concentrated investment (the Fund holds fewer investments than many other funds) in shares of infrastructure companies from various countries and sectors have historically been subject to relatively large fluctuations in value. As a result, the performance of the Fund can fluctuate considerably over time.

Risks materially relevant not adequately captured by the indicator:

Derivative instruments risk: the risk of loss in an instrument where a small change in the value of the underlying investment may have a larger impact on the value of such instrument. Derivatives may involve additional liquidity, credit and counterparty risks.

Emerging markets risk: the risk related to investing in countries that have less developed political, economic, legal and regulatory systems, and that

may be impacted by political/economic instability, lack of liquidity or transparency, or safekeeping issues.

Equity risk: prices of equities may be affected by factors such as economic, political, market, and issuer-specific changes. Such changes may adversely affect the value of the equities regardless of company-specific performance.

Foreign currency risk: the risk of loss arising from exchange-rate fluctuations or due to exchange control regulations.

Liquidity risk: the risk that arises when adverse market conditions affect the ability to sell assets when necessary. Such risk may be triggered by (but not limited to) unexpected events such as environmental disasters or pandemics. Reduced liquidity may have a negative impact on the price of the assets.

For a full discussion of all the risks applicable to this Fund, please refer to the "Risk Factors" section of the current prospectus of Franklin Templeton Funds.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the Fund over a year

Ongoing charges	0.81%
-----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	Not applicable
-----------------	----------------

The ongoing charges shown here are an estimate of the charges. We have used estimated figures as under current applicable rules we are not allowed to calculate ongoing charges for share classes with less than 12 months of data. The Fund's annual report for each financial year will include detail on the exact charges made.

For detailed information about charges, please refer to the "Fees and Charges" section of the current prospectus of Franklin Templeton Funds.

Past Performance

- Past performance is not a guide to future performance.
- The past performance shown here includes all the ongoing charges.
- Past performance is calculated in GBP.
- The Fund was launched in 2022.
- The FTF ClearBridge Global Infrastructure Income Fund was launched on 16 September 2022 to receive the assets of FTF ClearBridge Global Infrastructure Income Fund, a sub-fund of Franklin Templeton Funds II (the "merging fund"). Past performance from the start of the performance chart up until the launch date is simulated based on the past performance of the Class X Inc. (H) GBP in the merging fund.

Practical Information

- The Depositary of Franklin Templeton Funds is The Bank of New York Mellon (International) Limited.
- You can obtain further information about the Fund, copies of its prospectus and the latest annual and semi-annual reports of Franklin Templeton Funds from the website www.franklintempleton.co.uk or free of charge from Franklin Templeton Fund Management Limited, Cannon Place, 78 Cannon Street, London EC4N 6HL or your financial adviser. These documents are each available in English.
- The latest prices and other practical information on the Fund (including information about the other share classes of the Fund) are available from Franklin Templeton Fund Management Limited, Cannon Place, 78 Cannon Street, London EC4N 6HL or www.franklintempleton.co.uk.
- Please note that the United Kingdom taxation regime may have an impact on your personal tax position. Please consult your financial or tax adviser before deciding to invest.
- Franklin Templeton Fund Management Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus of the Fund.
- The present Fund is a sub-fund of Franklin Templeton Funds. The prospectus and the annual and semi-annual reports refer to all sub-funds of Franklin Templeton Funds. All sub-funds of Franklin Templeton Funds have segregated assets and liabilities. As a result, each sub-fund is operated independently from each other.
- You may exchange your shares in the Fund for shares in another sub-fund of Franklin Templeton Funds as further described in the prospectus.
- The details of the up-to-date remuneration policy, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits including the composition of the remuneration committee, are available at www.franklintempleton.co.uk and a paper copy can be obtained free of charge.

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Japan Index Fund

a sub-fund of HSBC Index Tracker Investment Funds, (the "OEIC");
managed by HSBC Global Asset Management (UK) Limited

Class: Income C
ISIN: GB00B80QGM70

Explanations of terms shown within the objectives and policy in bold, can be found within the glossary on our website: <http://www.assetmanagement.hsbc.com>.

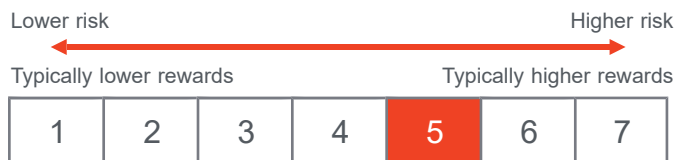

Objectives and Investment Policy

- The Fund aims to provide **growth** over the long term, which is a period of 5 years or more, by tracking the performance of the FTSE Japan Index (the "Index").
- The Index is made up of large and medium sized stock market listed companies in Japan.
- The Fund will invest directly in shares (**equities**) of all of the companies that make up the Index and in the same or very similar proportions in which they are included in the Index.
- However, there may be circumstances when it is not possible or practical for the Fund to invest in shares of all the companies of the Index. The Fund may not invest in all the companies of the Index to manage transaction costs or to reflect market conditions, regulations or HSBC's banned weapons policy.
- The Fund may hold cash and other funds, including funds managed by the **HSBC Group**, to manage day-to-day cash flow requirements.
- The anticipated **tracking error** for the Fund is expected to be up to 0.20%.

Use of derivatives

- The Fund may invest in different types of **derivatives** for **efficient portfolio management**, including **hedging**. In particular the Fund may use **derivatives** to help it manage cash flows and dividend payments with the aim of generating **returns** that are consistent with the Index. The use of **derivatives** will be consistent with the risk profile of the Fund.
- Income is distributed.
- You may sell your investment on any business day by contacting the administrator before the dealing deadline at 12pm.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within a period of 5 years.

Risk and Reward Profile

The risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

Why is this Fund in this specific category?

This Fund is classified in category 5 because its price or simulated data has shown medium to high fluctuations historically.

Material risks not fully captured by the Risk and Reward Indicator:

- Counterparty Risk** The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations.
- Derivatives Risk** Derivatives can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly

reflecting the pricing or volatility of their underlying reference(s), instrument or asset.

- Exchange Rate Risk** Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly.
- Index Tracking Risk** To the extent that the Fund seeks to replicate index performance by holding individual securities, there is no guarantee that its composition or performance will exactly match that of the target index at any given time ("tracking error").
- Investment Leverage Risk** Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- Liquidity Risk** Liquidity is a measure of how easily the Fund's holdings can be quickly converted to cash. The value of the Fund's holdings may be significantly impacted by liquidity risk during adverse market conditions.
- Operational Risk** Operational errors may affect transactions, valuation, accounting, financial reporting and other processes relating to the Fund.

Charges

The charges you pay are used to pay the running costs of the Fund, including the marketing and distribution costs. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charge	0.13%
----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

- The entry and exit charges shown are the maximum that may be charged. In some cases you may pay less. You can obtain the actual charges from your financial adviser.
- A conversion charge may be payable.
- The ongoing charges figure is based on last year's expenses for the year ending 15/11/2021. Charges may vary from year to year.

Further information on Charges can be found in the "Fees and Expenses" section of the Fund's Prospectus.

Past Performance

- Past performance is not a guide to future performance; the value of your investment and any income from it can go down as well as up.
- Performance returns are based on the net asset value with distributable income reinvested. Past performance takes account of all ongoing charges but not entry, exit or conversion charges.
- The past performance of this share class is calculated in GBP.
- The performance of the Fund is shown against the performance of the FTSE Japan Index.
- The Fund was launched on 14 January 1989.

Practical Information

Depository

State Street Trustees Limited.

Further information

Further information about the OEIC including the latest Prospectus, latest published prices of shares, annual report and half yearly report may be obtained free of charge, in English, from the Administrator, HSBC Global Asset Management (UK) Limited, Sunderland SR43 4BF or by visiting www.assetmanagement.hsbc.com. The most recent Prospectus is available in English. This document describes a single share class of the OEIC. The Prospectus, annual and half yearly reports are prepared for the entire OEIC.

Share classes

Other share classes are available, as detailed in the Prospectus. It is possible to convert your shares into a different share class or switch your shares into a different Fund within the OEIC. Details of how to do this are in the Prospectus (please note an initial charge may apply).

Remuneration Policy

The Remuneration Policy of the Authorised Corporate Director, which describes the remuneration practices and governance arrangements for UCITS and AIFMD Authorised entities, is available at www.assetmanagement.hsbc.com (please select "About Us" then "Our Governance" then "Remuneration Practices and Governance Arrangements for UCITS and AIFMD Authorised Entities") or on request free of charge from the Administrator.

Tax

UK tax legislation may have an impact on your personal position.

Management Company

HSBC Global Asset Management (UK) Limited, the Authorised Corporate Director, may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the OEIC.

Segregated liability

The OEIC is an umbrella investment company with segregated liability between Funds. This means that the holdings of one Fund are kept separate from the holdings of the other Funds and your investment in the Fund cannot be used to pay the liabilities of any other Fund.

The Fund is authorised in the United Kingdom and regulated by the Financial Conduct Authority. HSBC Global Asset Management (UK) Limited is authorised in the United Kingdom and regulated by the Financial Conduct Authority.

This key investor information is accurate as at 02 February 2022.

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

JPMorgan Fund ICVC

ISIN: GB00B4N20M25

JPM Multi-Asset Income Fund C - Net Accumulation

a Share Class of JPMorgan Fund ICVC – JPM Multi-Asset Income Fund. The Authorised Corporate Director ("ACD") is JPMorgan Funds Limited

Objectives, Process and Policies

INVESTMENT OBJECTIVE

To provide income by investing in a global portfolio of income generating securities, using derivatives where appropriate.

INVESTMENT PROCESS

Investment approach

- Multi-asset approach, leveraging specialists from around JPMorgan Asset Management's global investment platform, with a focus on risk adjusted income.
- Flexible implementation of the managers' allocation views at asset class and regional level.

Benchmark 40% MSCI World Index (Net) Hedged to GBP, 30% Bloomberg US High Yield 2% Issuer Cap Index Hedged to GBP, 30% Bloomberg Global Credit Index Hedged to GBP

Benchmark uses and resemblance

- The Fund is actively managed. The Benchmark is a Performance Comparator and the Fund may bear little resemblance to its Benchmark. The Benchmark has been chosen as it reflects the main investment universe and strategy for the Fund.
- Basis for [relative VaR](#) calculations.

POLICIES

Main investment exposure Invested, either directly or through derivatives, in debt securities (including MBS/ABS), equities and Real

Estate Investment Trusts ("REITS") from issuers located anywhere in the world, including emerging markets. The Fund may invest in investment grade, below-investment grade and unrated securities.

The Fund may invest in China A-Shares via the China-Hong Kong Connect Programmes and in convertible securities and currencies.

Other investment exposures Up to 3% in contingent convertible bonds. Participation notes, collective investment schemes and small capitalisation companies.

Derivatives Used for: investment purposes, efficient portfolio management; hedging. Types: see [Fund Derivative Usage](#) table under [How the Funds Use Derivatives, Instruments and Techniques](#) in the Prospectus. TRS including CFD: none. Global exposure calculation method: relative VaR. Expected level of leverage from derivatives: 175% indicative only. Leverage may significantly exceed this level from time to time.

Currencies Fund Base Currency: GBP. Currencies of asset denomination: any. Hedging approach: predominantly hedged to GBP.

Redemption and Dealing Shares of the Fund may be redeemed on demand, with dealing normally on a daily basis.

Distribution Policy This Share Class will reinvest income.

For an explanation of some of the terms used in this document, please visit the glossary on our website at www.jpmorgan.co.uk/kiid-glossary.

Risk and Reward Profile

The above rating is based on the historic volatility of the Net Asset Value of the Share Class over the last five years and may not be a reliable indication of the future risk profile of the Share Class.

The risk and reward category shown above is not guaranteed to remain unchanged and may change over time.

A Share Class with the lowest risk rating does not mean a risk-free investment.

Why is this Share Class in this category? This Share Class is classified in category 4 because its Net Asset Value has shown medium fluctuations historically.

OTHER MATERIAL RISKS

The Fund is subject to **Investment risks** and **Other associated risks** from the techniques and securities it uses to seek to achieve its objective.

The table on the right explains how these risks relate to each other and the **Outcomes to the Shareholder** that could affect an investment in the Fund.

Investors should also read [Risk Descriptions](#) in the Prospectus for a full description of each risk.

Investment risks Risks from the Fund's techniques and securities

Techniques	Securities	
Derivatives	China	- Unrated debt
Hedging	Contingent convertible bonds	Emerging markets
	Convertible securities	Equities
	Debt securities	MBS/ABS
	- Government debt	REITs
	- Investment grade debt	Participation notes
	- Below investment grade debt	Smaller companies
		UCITS, UCIs and ETFs

Other associated risks Further risks the Fund is exposed to from its use of the techniques and securities above

Credit	Interest rate	Market
--------	---------------	--------

Outcomes to the Shareholder Potential impact of the risks above

Loss Shareholders could lose some or all of their money.	Volatility Shares of the Fund will fluctuate in value.	Failure to meet the Fund's objective.
---	---	--

Charges

One-off charges taken before or after you invest		
Entry charge	None	This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.
Exit charge	None	
Charges taken from this Share Class over a year		
Ongoing charge	0.74%	The ongoing charge is based on the last year's expenses to December 2021 and may vary from year to year.
Charges taken from this Share Class under certain specific conditions		
Performance fee	None	

- The actual entry and exit charges paid may be less. Information on charges can be obtained from the investor's financial adviser.
- The Prospectus permits a fee to be charged for switching between Funds but this fee is currently waived by the Authorised Corporate Director.
- Charges are used to pay the costs of running this Share Class. These charges reduce the potential growth of the investment.
- Further information about charges can be found in the "Share Classes and Costs" section of the Prospectus.

Past Performance

- Past performance is not a guide to future performance.
- Performance data has been calculated including tax, ongoing charges and portfolio transaction costs and excluding entry and exit charges, in GBP.
- Fund launch date: 2009.
- Share Class launch date: 2012.

1 The performance shown prior the launch date of this share class relates to the A share class. The A share class performance has not been amended or simulated to adjust for the lower ongoing fees of the C share class.

Practical Information

Depository The fund depository is NatWest Trustee and Depository Services Limited

Morgan Asset Management, acting as a data controller, in accordance with applicable data protection laws. Further information about processing activities of J.P. Morgan Asset Management can be found in the EMEA Privacy Policy, which is available at www.jpmmorgan.com/emea-privacy-policy. Additional copies of the EMEA Privacy Policy are available on request.

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

JPMorgan Fund ICVC

ISIN: GB00B7N03064

JPM US Equity Income Fund C - Net Income (GBP Hedged)

a Share Class of JPMorgan Fund ICVC – JPM US Equity Income Fund. The Authorised Corporate Director ("ACD") is JPMorgan Funds Limited

Objectives, Process and Policies

INVESTMENT OBJECTIVE

To provide a portfolio designed to achieve income by investing in at least 80% of the Fund's assets in US equities in any economic sector whilst participating in capital growth over the long-term (5-10 years).

INVESTMENT PROCESS

Investment approach

- Uses a fundamental, bottom-up stock selection process.
- Targets companies with durable business models, consistent earnings, strong cash flows and experienced management teams.
- Targets a dividend yield above the benchmark over a market cycle.

Benchmark S&P 500 Index (Net of 15% withholding tax) Hedged to GBP

Benchmark uses and resemblance

- The Fund is actively managed. The Benchmark is a Performance Comparator and the Fund may bear little resemblance to its Benchmark. The Benchmark has been chosen as it reflects the main investment universe and strategy for the Fund.

POLICIES

Main investment exposure At least 80% of assets invested in equities of companies that are domiciled, or carrying out the main part of their economic activity, in the US.

Other investment exposures Canadian companies. Cash and near cash on an ancillary basis.

Derivatives Used for: efficient portfolio management; hedging Types: see [Fund Derivative Usage](#) table under [How the Funds Use Derivatives, Instruments and Techniques](#) in the Prospectus. TRS including CFD: none. Global exposure calculation method: commitment.

Currencies Fund Base Currency: GBP. Currencies of asset denomination: typically USD. Hedging approach: typically unhedged.

This Share Class seeks to minimise the effect of exchange rate fluctuations between the Sub-Fund's Base Currency and the Share Class Currency.

Redemption and Dealing Shares of the Fund may be redeemed on demand, with dealing normally on a daily basis.

Distribution Policy This Share Class will distribute income.

For an explanation of some of the terms used in this document, please visit the glossary on our website at www.jpmorgan.co.uk/kiid-glossary.

Risk and Reward Profile

The above rating is based on the historic volatility of the Net Asset Value of the Share Class over the last five years and may not be a reliable indication of the future risk profile of the Share Class.

The risk and reward category shown above is not guaranteed to remain unchanged and may change over time.

A Share Class with the lowest risk rating does not mean a risk-free investment.

Why is this Share Class in this category? This Share Class is classified in category 5 because its Net Asset Value has shown medium to high fluctuations historically.

OTHER MATERIAL RISKS

The Fund is subject to **Investment risks** and **Other associated risks** from the techniques and securities it uses to seek to achieve its objective.

The table on the right explains how these risks relate to each other and the **Outcomes to the Shareholder** that could affect an investment in the Fund.

Investors should also read [Risk Descriptions](#) in the Prospectus for a full description of each risk.

Investment risks Risks from the Fund's techniques and securities

Techniques	Securities
Hedging	Equities

Other associated risks Further risks the Fund is exposed to from its use of the techniques and securities above

Currency	Market
----------	--------

Outcomes to the Shareholder Potential impact of the risks above

Loss Shareholders could lose some or all of their money.	Volatility Shares of the Fund will fluctuate in value.	Failure to meet the Fund's objective.
---	---	--

Charges

One-off charges taken before or after you invest		
Entry charge	None	This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.
Exit charge	None	
Charges taken from this Share Class over a year		
Ongoing charge	0.84%	The ongoing charge is based on the last year's expenses to December 2021 and may vary from year to year.
Charges taken from this Share Class under certain specific conditions		
Performance fee	None	

- The actual entry and exit charges paid may be less. Information on charges can be obtained from the investor's financial adviser.
- The Prospectus permits a fee to be charged for switching between Funds but this fee is currently waived by the Authorised Corporate Director.
- Charges are used to pay the costs of running this Share Class. These charges reduce the potential growth of the investment.
- Further information about charges can be found in the "Share Classes and Costs" section of the Prospectus.

Past Performance

- Past performance is not a guide to future performance.
- Performance data has been calculated including tax, ongoing charges and portfolio transaction costs and excluding entry and exit charges, in GBP.
- Fund launch date: 2008.
- Share Class launch date: 2012.

1 The performance shown prior the launch date of this share class relates to the A share class. The A share class performance has not been amended or simulated to adjust for the lower ongoing fees of the C share class.

Practical Information

Depository The fund depository is NatWest Trustee and Depository Services Limited

Further Information A copy of the Prospectus and latest annual and semi-annual financial report in English can be downloaded or ordered online from www.jpmorgan.co.uk/investor or are available free of charge upon request from our UK-based Investor Services Team on 0800 20 40 20 (or +44 1268 44 44 70 if calling from outside the UK) or by writing to J.P. Morgan Asset Management, Client Administration Centre, PO Box 12272, Chelmsford, CM99 2EL.

Share prices can be obtained online at www.jpmorgan.co.uk/investor or by telephoning 0800 20 40 20 (or +44 1268 44 44 70 if calling from outside the UK).

Please note if you call J.P. Morgan Asset Management, calls may be recorded and monitored for security and training purposes.

Remuneration Policy The ACD's Remuneration Policy can be found on <https://am.jpmorgan.com/gb/en/asset-management/gim/awm/legal/emea-remuneration-policy>. This policy includes details of how remuneration and benefits are calculated, including responsibilities and composition of the committee which oversees and controls the policy. A copy of this policy can be requested free of charge from the ACD.

Tax The Fund is subject to UK tax regulations. This may have an impact on an investor's personal tax position.

Legal Information JPMorgan Funds Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.

JPMorgan Fund ICVC consists of separate Funds, each of which issues one or more Share Classes. This document is prepared for a specific Share Class. The Prospectus and annual and semi-annual financial reports are prepared for JPMorgan Fund ICVC.

The Fund is part of JPMorgan Fund ICVC. The assets and liabilities of each fund in JPMorgan Fund ICVC are segregated by law. This means that the assets of the Fund belong exclusively to the Fund and will not be used to pay the liabilities of any other person or body, including JPMorgan Fund ICVC or any other Fund within JPMorgan Fund ICVC.

Switching and Conversion Investors may switch into Shares of another Fund of JPMorgan Fund ICVC or convert Shares in one Class in a Fund to Shares of another Class in the same Fund subject to meeting any relevant eligibility requirements and minimum holding amounts. Further information can be found in "section 4.3.10 - Switching and Conversion of Shares" of the Prospectus.

You should also take note that information and data from communications with you may be processed by J.P. Morgan Asset Management, acting as a data controller, in accordance with applicable data protection laws. Further information about processing activities of J.P. Morgan Asset Management can be found in the EMEA Privacy Policy, which is available at www.jpmorgan.com/emea-privacy-policy. Additional copies of the EMEA Privacy Policy are available on request.

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Royal London Short Duration Global Index Linked Fund (Income - Class Z Shares)

A sub-fund of Royal London Bond Funds ICVC ISIN: GB00BD050G12
Managed by Royal London Unit Trust Managers Limited

Objectives and investment policy

Objective The Fund's investment objective is to achieve a total return (combination of capital growth and income) over the medium term (3–5 years) by investing at least 80% in short-duration (1-10 years) index-linked bonds.

The Fund's performance target is to outperform, after the deduction of charges, a composite benchmark of the 30% Bloomberg UK Government Inflation Linked Bond 1-10 year Total Return GBP Index, 70% Bloomberg World Government Inflation Linked Bond (ex UK) 1-10 year Total Return GBP Index (the "Index") over rolling 5-year periods. For further information on the Fund's index, please refer to the Prospectus. The Fund is actively managed.

Policy At least 80% of the Fund will be invested in index-linked bonds with a duration of up to 10 years. These may include UK and global index linked government and corporate bonds that may be investment grade or non-investment grade. At least 70% of these investments will be made in the UK, North America and Europe, and will be sterling-denominated or hedged back to sterling.

The remainder of the Fund's assets may be invested in a range of other securities, including index-linked government bonds with a duration greater than five years, fixed-rate government bonds, supranational bonds and agency bonds. The Fund may also invest in asset-backed securities and floating-rate notes.

Up to 10% of the Fund's assets may be invested in other funds, known as collective investment schemes. A limited amount of the Fund's assets may be invested in other transferable securities and money market instruments.

The Fund may also hold a small amount of its portfolio in derivatives (investments that derive their value from another closely related underlying investment) for the purposes of efficient portfolio management.

Cash is unlikely to exceed 5% of assets.

Recommendation The Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Other information The Fund may invest more than 35% of its value in securities issued or guaranteed by one or more of the Governments of the countries listed in the Fund's Prospectus.

Concepts to understand

Bonds are defined as fixed-income investments issued as debt by companies and public bodies to raise finance. Investors in bonds receive a previously agreed, non-variable interest payment until the investment matures. Corporate bonds are those issued by companies to raise finance.

Total Return A total return is a combination of capital growth and income. Capital growth is defined as the rise in an investment's value over time and income as the payment an investment generates, such as dividends or bond coupons.

Rolling 5 Year Period A rolling 5-year period is any period of five years, no matter which day you start on.

Efficient Portfolio Management A list of approved investment techniques, including the use of derivatives, used to protect against excessive risk, reduce cost or generate extra income or growth.

You can buy and sell your shares on each working day, except public holidays, at 12:00 noon if you tell us before 12:00 noon that you want to do so. Instructions received after 12:00 noon will be processed at 12:00 noon on the following working day.

Other share classes may be available as described in the Prospectus. If this is an income share class, any income will be paid out to you. If this is an accumulation share class, any income will be reinvested in the Fund.

Risk and reward profile

The fund is shown in risk category 3 because its simulated price has shown a medium to low level of volatility historically. The SRRRI was calculated using some synthetic data and may not be a reliable indication of the future risk profile. As an investment, money market instruments are typically less volatile than bonds and shares.

The risk and reward indicator is not a measure of the expected rise or fall in capital but shows how sharply the Fund's share price has gone up and down historically.

A fund whose share price has experienced sharp or large increases or decreases will sit in a higher risk category, whereas a fund whose share price has experienced small or gradual increases or decreases will sit in a lower risk category.

The indicator is calculated using a standard methodology derived from EU rules.

The risk/reward indicator is an estimate and not a guarantee. Going forward, the Fund's actual volatility could be higher or lower, and its rated risk/reward profile could change. The lowest risk category does not mean the investment is risk free.

The risk indicator does not adequately capture the following risks, which are materially relevant to the Fund:

Investment Risk The value of investments and any income from them may go down as well as up and is not guaranteed. Investors may not get back the amount invested.

Credit Risk Should the issuer of a fixed income security become unable to make income or capital payments, or their rating is downgraded, the value of that investment will fall. Fixed income securities that have a lower credit rating can pay a higher level of income and have an increased risk of default.

EPM Techniques The Fund may engage in EPM techniques including holdings of derivative instruments. Whilst intended to reduce risk, the use of these instruments may expose the Fund to increased price volatility.

Exchange Rate Risk Investing in assets denominated in a currency other than the base currency of the Fund means the value of the investment can be affected by changes in exchange rates.

Interest Rate Risk Fixed interest securities are particularly affected by trends in interest rates and inflation. If interest rates go up, the value of capital may fall, and vice versa. Inflation will also decrease the real value of capital.

Liquidity Risk In difficult market conditions the value of certain fund investments may be difficult to value and harder to sell, or sell at a fair price, resulting in unpredictable falls in the value of your holding.

Counterparty Risk The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

Government and Public Securities Risk The Fund can invest more than 35% of net assets in different Transferable Securities and Money Market Instruments issued or guaranteed by any EEA State, its local authorities, a third country or public international bodies of which one or more EEA States are members.

Charges from Capital Risk Charges are taken from the capital of the Fund. Whilst this increases the yield, it also has the effect of reducing the potential for capital growth.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing the Fund. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest:

Entry charge None

Exit charge None

Charges taken from the fund over a year:

Ongoing charge 0.22%

Charges taken from the fund under specific conditions:

Performance fee None

The entry and exit charge is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Ongoing charge is based on the Fund Management Fee (FMF), which is the periodic fee paid to the ACD to cover the expenses of the Fund. This figure does not include portfolio transaction costs. Ongoing charges are the same for all investors in the share class.

Past performance

The graph shows fund performance over the past 10 years where available. The figure for a given year shows how much the Fund increased or decreased in value during that year. These results reflect ongoing charges taken from the Fund, but do not reflect any entry charges you might have to pay. The Fund was launched on 23 February 2016 and the share class on 23 February 2016.

The Royal London Short Duration Global Index Linked Fund (Income - Class Z Shares) in GBP

Past performance is not a guide to future performance and may not be repeated.

The chart shows performance in British Pounds after the ongoing charges and the portfolio transaction costs have been paid. Entry and exit charges are excluded from calculations of past performance.

Publication Date: This Key Investor Information is accurate as at 15 February 2023

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Schroder Asian Income Maximiser

an Authorised Unit Trust of Schroder Unit Trusts Limited

Class Z Income GBP (GB00B52QVQ30)

This fund is managed by Schroder Unit Trusts Limited, which is a member of the Schroders Group.

Objectives and investment policy

Objectives

The fund aims to provide income and capital growth by investing in equities of Asian companies, excluding Japan. The fund aims to deliver an income of 7% per year but this is not guaranteed and could change depending on market conditions.

Investment Policy

The fund is actively managed and invests at least 80% of its assets in equities of Asian companies, excluding Japan, which are selected for their long term income and capital growth potential.

To seek to enhance the yield, the investment manager selectively sells short dated call options over individual securities, portfolios of securities or indices held by the fund, by agreeing strike prices above which potential capital growth is sold.

The fund may also invest directly or indirectly in other securities (including in other asset classes), countries, regions, industries or currencies, collective investment schemes (including Schroder funds), warrants and money market

instruments, and hold cash.

The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently.

The fund's investment strategy will typically underperform a similar portfolio without derivatives in periods when the underlying stock prices are rising, and has the potential to outperform when the underlying stock prices are falling.

Benchmark

The fund's performance should be assessed against the income target of 7% per year, and compared against the MSCI AC Pacific ex Japan (Net Total Return) index and the Investment Association Asia Pacific ex Japan sector average return.

Dealing Frequency

You may redeem your investment upon demand. This fund deals daily.

Distribution Policy

This unit class pays income received from the fund's investments to you quarterly.

Risk and reward profile

The risk and reward indicator

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Risk factors

Capital risk / Distribution policy: As the fund intends to pay dividends regardless of its performance, a dividend may represent a return of part of the amount you invested.

Currency risk: The fund may lose value as a result of movements in foreign exchange rates.

Maximiser funds: Derivatives are used to generate income (which is paid to investors) and to reduce the volatility of returns but they may also reduce fund

performance or erode capital value.

Emerging Markets & Frontier risk: Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty, operational and liquidity risk than developed markets.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares.

Operational risk: Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

IBOR: The transition of the financial markets away from the use of interbank offered rates (IBORs) to alternative reference rates may impact the valuation of certain holdings and disrupt liquidity in certain instruments. This may impact the investment performance of the fund.

Derivatives risk: Derivatives may be used to manage the portfolio efficiently. The fund may also materially invest in derivatives including using short selling and leverage techniques with the aim of making a return. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

Charges

One-off charges taken before or after you invest

Entry charge None

Exit charge None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges 0.90%

Charges taken from the fund under certain specific conditions

Performance fee

None

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2022 and may vary from year to year. The ongoing charge figure excludes portfolio transaction costs. The charges are mostly, if not exclusively, the Schroders Annual Charge (as may be discounted for retail unit classes depending on the size of the fund) but certain additional expenses may be charged as set out in the prospectus. The Schroders Annual Charge (without any discount) for this unit class of the fund is 0.90%. The fund's annual report for each financial year will include details on the exact charges made including any discounts.

Please see the prospectus for more details about the charges.

Past performance

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in British pound after the ongoing charges and the portfolio transaction costs have been paid.

The fund was launched on 01/06/2010.

The shareclass was launched on 01/06/2010.

Practical information

Trustee: J. P. Morgan Europe Ltd.

Further Information: You can get further information about this fund, including the prospectus, latest annual report, any subsequent half-yearly reports and the latest price of units from www.schroders.com/ukinvestor and from Schroders, PO Box 1402, Sunderland, SR43 4AF, England, telephone 0800 182 2399. They are in English, free of charge.

Tax Legislation: The fund is subject to UK tax legislation which may have an impact on your personal tax position.

Liability: Schroder Unit Trusts Ltd may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the fund's prospectus.

Switches: Subject to conditions, you may apply to switch your investment into another unit class within this fund or in another Schroder fund. Please see the

prospectus for more details.

Remuneration Policy: A summary of Schroders' remuneration policy and related disclosures is at www.schroders.com/remuneration-disclosures. A paper copy is available free of charge upon request.

The policy includes a description of how remuneration and benefits are calculated & the identities of persons responsible for awarding the remuneration and benefits.

Glossary: You can find an explanation of some of the terms used in this document at www.schroders.com/ukinvestor/glossary.

Benchmark: The income target has been selected because the investment manager deploys strategies that aim to deliver the level of income stated in the investment objective. The comparator benchmarks have been selected because the investment manager and the manager believe that each of these benchmarks is a suitable comparison for performance purposes given the fund's investment objective and policy.

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Schroder Income Maximiser

an Authorised Unit Trust of Schroder Unit Trusts Limited

Class Z Income GBP (GB00B53FRD82)

This fund is managed by Schroder Unit Trusts Limited, which is a member of the Schroders Group.

Objectives and investment policy

Objectives

The fund aims to provide income and capital growth by investing in equity and equity-related securities of UK companies. The fund aims to deliver an income of 7% per year but this is not guaranteed and could change depending on market conditions.

Investment Policy

The fund is actively managed and invests at least 80% of its assets in equity and equity related securities of UK companies, which are selected for their long term income and capital growth potential. These are companies that are incorporated, headquartered or have their principal business activities in the UK.

The fund focuses on companies that have certain "Value" characteristics. Value is assessed by looking at indicators such as cash flows, dividends and earnings to identify securities which the investment manager believes have been undervalued by the market.

To seek to enhance the yield, the investment manager selectively sells short dated call options over individual securities, portfolios of securities or indices held by the fund, by agreeing strike prices above which potential capital growth is sold.

The fund may also invest directly or indirectly in other securities (including in other asset classes), countries, regions, industries or currencies, collective investment schemes (including Schroder funds), warrants and money market instruments, and hold cash.

The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently (for more information please refer to section 6 of Appendix I of the Prospectus).

The fund's investment strategy will typically underperform a similar portfolio without derivatives in periods when the underlying stock prices are rising, and outperform when the underlying stock prices are falling.

Benchmark

The fund's performance should be assessed against the income target of 7% per year, and compared against the FTSE All Share (Gross Total Return) Index and the Investment Association UK Equity Income sector average return.

Dealing Frequency

You may redeem your investment upon demand. This fund deals daily.

Distribution Policy

This unit class pays income received from the fund's investments to you quarterly.

Risk and reward profile

Lower risk

Potentially lower reward

Higher risk

Potentially higher reward

The risk and reward indicator

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Risk factors

Capital risk / Distribution policy: As the fund intends to pay dividends regardless of its performance, a dividend may represent a return of part of the amount you invested.

Concentration risk: The fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the fund, both up or down.

Currency risk: The fund may lose value as a result of movements in foreign

exchange rates.

Maximiser funds: Derivatives are used to generate income (which is paid to investors) and to reduce the volatility of returns but they may also reduce fund performance or erode capital value.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares.

Operational risk: Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

IBOR: The transition of the financial markets away from the use of interbank offered rates (IBORs) to alternative reference rates may impact the valuation of certain holdings and disrupt liquidity in certain instruments. This may impact the investment performance of the fund.

Derivatives risk: Derivatives may be used to manage the portfolio efficiently.

The fund may also materially invest in derivatives including using short selling and leverage techniques with the aim of making a return. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

Switches: Subject to conditions, you may apply to switch your investment into another unit class within this fund or in another Schroder fund. Please see the

prospectus for more details.

Remuneration Policy: A summary of Schroders' remuneration policy and related disclosures is at www.schroders.com/remuneration-disclosures. A paper copy is available free of charge upon request.

The policy includes a description of how remuneration and benefits are calculated & the identities of persons responsible for awarding the remuneration and benefits.

Glossary: You can find an explanation of some of the terms used in this document at www.schroders.com/ukinvestor/glossary.

Benchmark: The income target has been selected because the investment manager deploys strategies that aim to deliver the level of income stated in the investment objective. The comparator benchmarks have been selected because the investment manager and the manager believe that each of these benchmarks is a suitable comparison for performance purposes given the fund's investment objective and policy.

KEY INFORMATION DOCUMENT

Purpose:

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Document valid from: 05/01/2023

Trojan Global Income Fund, O Income, ISIN: GB00BD82KQ40

Trojan Investment Funds (the "Company"), an open-ended investment company, authorised and regulated by the Financial Conduct Authority ("FCA") in United Kingdom.

Website: www.linkfundsolutions.co.uk, Telephone number: +44 345 608 0950

PRIP Manufacturer: Link Fund Solutions Limited ("LFLS")

Depository: The Bank of New York Mellon (International) Limited ("the Depository")

What is this product?

Intended Retail Investor: Investments are suitable for retail investors whose investment requirements are aligned with the objectives, policies and risk profile of the Fund

Term: This fund has no maturity date.

Objectives:

To seek to achieve income with the potential for capital growth in the medium term (3 to 5 years). There is no guarantee that the objective will be met or that income or capital growth will be delivered over any time period and you may get back less than you invest

To invest at least 80% of its assets globally in equities (which includes company shares, investment trusts and Real Estate Investment Trusts) and equity related securities (investments whose value is linked to the performance of the shares in one or more companies). The fund may also invest in bonds (for example, loans to either a company or government that pay interest), money market instruments (for example, short term loans that pay interest), deposits and cash and indirectly in private equity and property. Exposure to these asset classes may be achieved by investing in investment trusts and other funds (including those managed by the Manager, the Investment Manager and their associates). The fund will invest in line with the requirements of the Investment Manager's Climate Change Mitigation Policy (as further described in the Investment Strategy in the prospectus). The Investment Manager's investment decisions will be based on an assessment of various factors including the potential for dividend growth and growth in cash flow and profits. The Investment Manager will seek to construct a portfolio of investments to deliver income but which may also grow in value over time. The Investment Manager aims to construct a portfolio for the fund that seeks to promote climate change mitigation through an investment process which assesses a company's alignment to, or commitment to align to net zero greenhouse gas emissions by 2050. The Investment Manager also assesses the corporate governance practices of companies in which the fund may invest. The asset classes to which this investment process applies are set out in the Investment Manager's Climate Change Mitigation Policy on the Investment Manager's website at www.taml.co.uk. It does not apply to other assets within the fund.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. In addition to the market price risk, please refer to the fund's prospectus for further information.

If the fund currency differs from your investment currency, you will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are unable to pay you.

We have classified this product as class 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level. Poor market conditions could impact your returns.

The value of your investment may fall and you may not get back the amount you invested.

Performance Scenarios

Future market performance cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower. What you get will depend on how the market performs and how long you keep the investment.

The figures shown include all the costs of the product itself, but do not take into account your personal tax situation and may not include all the costs that you pay to your advisor or distributor, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Investment: GBP 10,000			
Scenarios		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Stress Scenario	What you might get back after costs	2 850 GBP	2 770 GBP
	Average return each year	- 71.51 %	- 22.67 %
Unfavourable Scenario	What you might get back after costs	9 590 GBP	9 890 GBP
	Average return each year	- 4.12%	- 0.22%
Moderate Scenario	What you might get back after costs	10 920 GBP	16 570 GBP
	Average return each year	9.15%	10.63%
Favourable Scenario	What you might get back after costs	13 020 GBP	19 910 GBP
	Average return each year	30.18%	14.77%

What happens if the Company is unable to pay out?

The assets of fund are entrusted to the Depositary. If the fund encounters financial difficulties, the assets entrusted to the Depositary (or its delegates) will not be affected. If the Depositary (or its delegates) encounter financial difficulties, the fund could suffer a loss in some circumstances. Investors may be covered by the Financial Services Compensation Scheme ("FSCS") if the fund is unable to pay out.

What are the costs?

Costs over time

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for two different holding periods. The figures assume you invest GBP 10,000. The figures are estimates and may change in the future. The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed that you invest GBP 10,000 and that in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

Investment: GBP 10,000		
	If you exit after 1 year	If you exit after 5 years (recommended holding period)
Total costs	96 GBP	813 GBP
Impact on return (RIY) per year (*)	0.96 %	1.07 %

Composition of costs

If you exit after 1 year			
One-off costs upon entry or exit	Entry fees	The impact of the costs you pay when entering your investment.	N/A
	Exit costs	The impact of the costs you pay when exiting your investment. We do not charge an exit fee for this product, but the person selling you the product may do so.	N/A
Ongoing costs	Management fees and other administrative or operating costs	0.90% are incurred each year in managing your investments including those incurred by any underlying investments. The ongoing charges figure is based on expenses as at 31 July 2022.	91 GBP
	Transaction costs	The impact of the costs incurred when we are buying and selling underlying investments for the product.	5 GBP
Incidental costs taken under specific conditions	Performance fees	The Fund does not charge a performance fee.	N/A

How long should I hold it and can I take money out early?

LFSL recommends a minimum holding period of 5 years for investments made into this fund. If you sell your shares before the end of the recommended holding period you may increase the risk of receiving back less than you invested. You can buy and sell shares in the fund on each business day. Please refer to the prospectus for full details.

Recommended holding period:

5 years

How can I complain?

Complaints concerning the operation of any funds offered by LFSL may be referred to the Complaints Department, Link Fund Solutions Limited, PO Box 389, Unit 1, Roundhouse Road, Darlington, DL1 9UF or by email to investorservices@linkgroup.co.uk or by telephone to +44 345 922 0044. A copy of our complaint guide is available on request.

Once we have considered your complaint, you may have the right to refer the matter to the Financial Ombudsman Service ("FOS"). Should you wish to refer a complaint or contact the FOS you may do so at: Financial Ombudsman Service, Exchange Tower, London E14 9SR or by telephone to +44 800 023 4567 (free but charges may apply if called from a mobile) or to +44 300 123 9123, or via their website at: www.financial-ombudsman.org.uk/contact/index.html or e-mail: complaint.info@financial-ombudsman.org.uk.

Other relevant information

Alongside this document, please read the prospectus. Copies of the prospectus, the latest annual and semi-annual reports, as well as the latest published prices of the shares in the fund and other information, including how to buy and sell shares are available on LFSL's website (details below).

You may switch your investment into shares of another sub-fund of the company and a charge might be applied if you do so. For further details please see the sections "Conversion and Switching" and "Fees and Expenses" in the fund's prospectus.

Trojan Investment Funds is an umbrella fund with segregated liability between its funds. Therefore, the holdings of this fund are maintained separately under UK law from holdings of other funds within Trojan Investment Funds, so your investment in this fund will not be affected by any claims against any other fund of Trojan Investment Funds.

The above information and details of the past performance of the fund and the previous performance scenario calculations can be found on the website. The past performance chart shows the share class's performance as the percentage loss or gain per year over the last 5 years. All the information can be found on <https://www.linkfundsolutions.co.uk/uk/troy-asset-management-limited/trojan-investment-funds/trojan-global-income-fund/>.

Qualified Investors in Switzerland can obtain the prospectus, the key investor documents for Switzerland, the instrument of incorporation, the latest annual or semi-annual report, and further information free of charge from the representative in Switzerland: Carnegie Fund Services S.A., 11, rue du Général-Dufour, CH-1204 Geneva, Switzerland, web: www.carnegie-fund-services.ch. The Swiss paying agent is: Banque Cantonale de Genève, 17, quai de l'Île, CH-1204 Geneva, Switzerland. The risk indicator and the performance scenarios have been calculated and presented by analogy with the provisions of Regulation (EU) No 1286/201465 and Delegated Regulation (EU) No. 2017/653. In respect of shares offered in Switzerland the place of jurisdiction is at the registered office of the representative in Switzerland. Details of Link Fund Solutions' Remuneration Code are available on www.linkfundsolutions.co.uk. This describes how remuneration and benefits are calculated and identifies persons responsible for awarding the remuneration and benefits. A paper copy is available free on request.

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Document valid from: 05/01/2023

Trojan Fund, X Income, ISIN: GB00BZ6CQ069

Trojan Investment Funds (the "Company"), an open-ended investment company, authorised and regulated by the Financial Conduct Authority ("FCA") in United Kingdom.

Website: www.linkfundsolutions.co.uk, Telephone number: +44 345 608 0950

PRIIP Manufacturer: Link Fund Solutions Limited ("LFSL")

Depository: The Bank of New York Mellon (International) Limited ("the Depository")

What is this product?

Intended Retail Investor: Investments are suitable for retail investors whose investment requirements are aligned with the objectives, policies and risk profile of the Fund

Term: This fund has no maturity date.

Objectives:

To seek to achieve growth in capital (net of fees), ahead of inflation, as measured by the UK Retail Prices Index, over the longer term (over 5 to 7 years). There is no guarantee that the objective will be met or that capital growth will be delivered over any time period and you may get back less than you invest.

To invest globally in a range of asset classes including equities (company shares) and equity related securities (investments whose value is linked to the performance of the shares in one or more companies), bonds (for example, loans to either a company or government that pay interest), money market instruments (for example, short term loans that pay interest), deposits and cash and indirectly in private equity and precious metals (for example, gold). Exposure to these asset classes may be achieved by investing in investment trusts and other funds (including those managed by the Manager, the Investment Manager and their associates). The fund will invest in line with the requirements of the Investment Manager's Climate Change Mitigation Policy (as further described in the Investment Strategy in the prospectus). The Investment Manager's asset allocation decisions will be based on various factors including analysis of economic conditions, interest rates and inflation. The Investment Manager will seek to buy investments which it considers have the ability to grow in value over time. The Investment Manager aims to construct a portfolio for the fund that seeks to promote climate change mitigation through an investment process which assesses a company's alignment to, or commitment to align to net zero greenhouse gas emissions by 2050. Exposure to asset classes will be varied and at times less than 50% of the fund may be invested in these companies. The Investment Manager also assesses the corporate governance practices of companies in which the fund may invest. The asset classes to which this investment process applies are set out in the Investment Manager's Climate Change Mitigation Policy on the Investment Manager's website at www.taml.co.uk. It does not apply to other assets within the fund.

Vanguard FTSE U.K. Equity Income Index Fund (the "Fund")

A sub-fund of Vanguard® Investments Funds ICVC

GBP Inc
ISIN: GB00B5B74684

Authorised Corporate Director: Vanguard Investments UK, Limited ("VIUK")

Objectives and investment policy

- The Fund seeks to track the performance of the FTSE U.K. Equity Income Index (the "Index").
- The Index consists of common shares of companies listed on the London Stock Exchange's main market, that are expected to pay dividends that generally are higher than average.
- The Fund is a passive fund which means it takes the form of tracking a specific index in order to replicate its performance.
- The Fund attempts to:
 1. Track the performance of the Index by investing in all constituent shares of the Index in the same proportion as the Index.
 2. Remain fully invested and hold small amounts of cash except in extraordinary market, political or similar conditions where the Fund may temporarily depart from this investment policy to avoid losses.
- The Fund may use derivatives (i.e. a financial contract whose value is based on the value of a financial asset (such as a share, bond, or currency) or a market index) in order to reduce risk or cost and/or generate extra income or growth (known as "efficient portfolio management").
- The currency of the share class is GBP.
- The Fund may not be appropriate for short-term investment.
- Income from the Fund will be paid out.
- Portfolio transaction costs will have an impact on performance.
- Shares in the Fund can be bought or sold on a daily basis (save on certain

bank holidays or public holidays and subject to certain restrictions described in Appendix 1 of the Prospectus) by submitting an application in writing or by telephone. A list of the days on which shares in the Fund cannot be bought or sold is available on:

<https://global.vanguard.com/portal/site/loadPDF?country=global&docId=11627>

For further information about the objectives and investment policy of the Fund and Vanguard's relationship with the Index provider, please see Appendix 1 and the "Disclaimer" section of the Vanguard Investments Funds ICVC prospectus (the "Prospectus") on our website at <https://global.vanguard.com/>

Risk and reward profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean "risk free".
- The Fund is rated 6 due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
 - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
 - Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political or regulatory events.

The risk and reward indicator does not take account of the following risks of investing in the Fund:

- Counterparty risk. The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- Liquidity risk. Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily which could cause the Fund to incur higher costs when buying or selling investments or could mean that the Fund is not able to buy or sell investments when it would like to do so.
- Index tracking risk. The Fund is not expected to track the performance of the Index at all times with perfect accuracy. The Fund is, however, expected to provide investment results that, before expenses, generally correspond to the price and yield performance of the Index.
- Index sampling risk. As the Fund uses an index sampling technique whereby a representative sample of securities are selected to represent the Index, there is the risk that the securities selected for the Fund may not, in the aggregate, approximate the full Index.
- Use of derivatives. The use of derivatives could increase or reduce exposure to underlying assets and result in greater fluctuations of the Fund's net asset value.

For further information on risks please see the "Risk Factors" section of the Prospectus on our website at <https://global.vanguard.com>

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. Any charges to the investor will be taken from capital, not income. This may increase the level of income paid but will result in capital erosion and will constrain growth.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charges	0.14%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures and in some cases you might pay less. Investors can find out the actual entry and exit charges from their distributor and or adviser.

The ongoing charges figure is based on expenses for the year ended 31 December 2022. This figure may vary from year to year. It excludes portfolio transaction costs.

For further information about charges please see the sections entitled "Buying Shares", "Redeeming Shares", "Charges and Expenses", "Dilution Adjustment" and Appendix 1 of the Prospectus on our website at <https://global.vanguard.com>

Past performance

Past performance:

1. Is not a reliable indication of future performance.
 2. Includes ongoing charges and the reinvestment of income. It excludes entry and exit fees.
 3. Has been calculated in GBP.
- Shares in the Fund were first issued in 2009. This share class was launched in 2009.

Practical information

- **Depository:** State Street Trustees Limited.
- **Documents, prices of shares and further information:** You can obtain copies of the Prospectus and the latest annual and semi-annual report and accounts for Vanguard Investments Funds ICVC ("VIF") along with the latest published prices of shares and other practical information, from our website at <https://global.vanguard.com>. The documents are available in English and are free of charge.
- **Prices:** The last published prices of shares in the Fund are also available from the FT's website www.ft.com or <https://global.vanguard.com>
- **Tax:** VIF is subject to the tax laws of the United Kingdom. Depending on your country of residence, this may have an impact on your personal tax position. You are recommended to consult your professional tax adviser.
- **Liability:** VIUK may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for VIF.
- **Sub-funds:** This document describes a sub-fund of VIF. The prospectus and periodic reports are prepared for the entire company.
- The Fund's assets belong exclusively to the Fund and shall not be used to discharge the liabilities of or claims against VIF, other sub-funds of VIF or any other person or body.
- **Shares:** The Fund is part of VIF and has both accumulation and income shares. You may switch some or all of your shares of one type, to shares of another type within the same Fund, or between other sub-funds of VIF or other funds managed by VIUK. Details of switching are provided in the Prospectus.
- Information about other share classes offered by VIF can be found in the prospectus or from our website at <https://global.vanguard.com>.
- **Remuneration policy:** Details of the Vanguard European Remuneration Policy are available at <https://www.ie.vanguard/content/dam/intl/europe/documents/ch/en/ucits-v-remuneration-policy.pdf> including: (a) a description of how remuneration and benefits are calculated; and (b) the identities of persons responsible for awarding remuneration and benefits. A paper copy of these details may be obtained, free of charge, on request from the Head of Human Resources, Europe, Vanguard Asset Services, Limited, 4th Floor The Walbrook Building, 25 Walbrook, London EC4N 8AF.
